Introduction

What is your name?

Name:

What is your email address?

Email:

Are you responding to this survey as:

Parent or guardian

What is your organisation?

Organisation:

Do you consent to the ACCC publishing your submission?

Yes, but do not publish my name

Draft Findings - Costs

1. Labour is the main driver of cost for supplying childcare, accounting for 69% at centre based day care and 77% at outside school hours care. Labour costs have increased significantly for large centre based day care providers over the last 5 years.

Unsure / No View

Please provide further comment if relevant:

2. Land and related costs are the other significant driver of cost for centre based daycare providers.

Do Not Agree

Please provide further comment if relevant:

3. Not-for-profit providers appear to face lower land costs than for profit providers, but these savings are invested into labour.

Agree

Please provide further comment if relevant:

4. Location influences costs of supplying childcare services, although the influence differs depending on the cost category. Overall, costs to supply services to different areas of remoteness and socio-economic advantage do not differ greatly, except for the areas of most remoteness and most socio-economic advantage.

Please provide further comment if relevant:

Draft Findings - Competition

5. Parents' and guardians' demand for centre based day care is driven by a complex combination of factors. Parents look to prevailing market prices, however informal measures of quality are key considerations.

Do Not Agree

Please provide further comment if relevant:

6. Providers' supply decisions are influenced by expectations of viability, which is heavily influenced by relative socio-economic advantage and geographic location.

Agree

Please provide further comment if relevant:

7. Staffing constraints are a barrier to more suppliers entering or expanding their operations in childcare markets.

Agree

Please provide further comment if relevant:

8. The nature of competition reflects the unique demand and supply factors in childcare markets; price plays a less influential role once households have chosen how much childcare to use and providers compete on quality to attract and retain children and families.

Agree

Please provide further comment if relevant:

Draft Findings - Price regulation mechanisms

13. The design of the Child Care Subsidy and existing price regulation mechanism has had a limited effect in placing downward pressure on prices and limiting the burden on taxpayers.

Agree

Please provide further comment if relevant:

Childcare operators ensure they increase prices to gain more subsidy. Subsidy not helping families helping for profit sector.

14. Childcare providers are optimising session lengths to match current activity test entitlements to minimise out-of-pocket expenses for parents and guardians and maintain their revenues and profits.

Unsure / No View

Please provide further comment if relevant:

15. The Child Care Subsidy is complex for parents and guardians to understand and it is difficult to estimate out-of-pocket expenses.

Do Not Agree

Please provide further comment if relevant:

16. More information is important for parents and guardians, yet the comparator website StartingBlocks.gov.au is not widely used by parents and guardians and can contain outdated information.

Do Not Agree

Please provide further comment if relevant:

Draft Findings - International childcare costs and price regulation mechanisms

17. Overseas data indicates childcare in Australia is relatively less affordable for households than in most other OECD countries.

Agree

Please provide further comment if relevant:

18. Many OECD countries are moving toward greater regulation of childcare fees such as low fees or free hours for parents and guardians, supported with supply-side subsidies to cover providers' costs of provision.

Agree

Please provide further comment if relevant:

Draft Recommendations - Existing regulatory arrangements

Draft recommendation 1 - The ACCC recommends that the Australian Government reconsider and restate the key objectives and priorities of its childcare policies and supporting measures, including the relevant price regulation mechanism.

Support

Please provide further comment if relevant:

Draft recommendation 2 - The ACCC recommends further consideration and consultation on changes to the Child Care Subsidy and existing hourly rate cap mechanism, to simplify their operation and address unintended consequences, including on incentives and outcomes.

Support

Please provide further comment if relevant:

Draft recommendation 2 (a) - Consideration be given to determining an appropriate base for the rate cap and indexing the cap to more closely reflect the input costs relevant to delivery of childcare services. This could include consideration of labour costs as well as the additional costs associated with providing childcare services in remote areas and to children with disability and/or complex needs

Support

Please provide further comment if relevant:

Draft recommendation 2 (b) - Consideration be given to changing the hourly rate cap to align with the relevant pricing practice for the service type. This could include consideration of a daily fee cap for centre based day care. Consideration will need to be given to setting and monitoring minimum requirements to avoid creating incentives for childcare providers to reduce flexibility or quality.

Support

Please provide further comment if relevant:

Draft recommendation 2 (c) - Consideration be given to removing, relaxing or substantially reconfiguring the current activity test, as it may be acting as a barrier to more vulnerable children (for example, households with low incomes or disadvantaged areas) accessing care and creating a barrier to workforce entry or return for some groups. An alternative would be to consider a specific entitlement, such as a certain number of days of care.

Do Not Support

Please provide further comment if relevant:

Draft recommendation 2 (d) - Consideration be given to including a stronger price and outcomes monitoring role by government, supported by a credible threat of intervention, to place downward pressure on fees.

Support

Please provide further comment if relevant:

Prosecute those services who raise prices to gain the subsidy increases.

Draft recommendation 3 - The ACCC supports reconsideration of the information gathered for and reported on StartingBlocks.gov.au so that it is better focused on meeting parents and guardians' information needs, and balanced against the costs of collecting and publishing information. This could include:

Unsure / No View

Please provide further comment if relevant:

Draft recommendation 4 - The ACCC recommends that the governments further consider how the existing regulatory frameworks support and influence the attraction and retention of educators and workforce in the early childhood education and care sector.
