MARS/PRISM:	

Dear Ms Arblaster

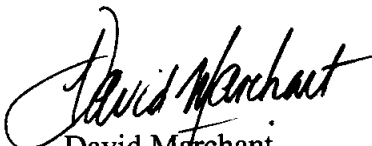

Australian Rail Track Corporation Limited ("ARTC") – Access Undertaking dated 1 May 2002 accepted by the ACCC on 1 May 2002 ("Undertaking")

I refer to the Undertaking and previous discussions and communications between Glenn Edwards from ARTC and David Salisbury and Renato Viglianti from the ACCC.

For the purposes of clarity, ARTC confirms that the Network Management Principles specified in Schedule F to the Undertaking are the same Network Management Principles that should also be specified in Schedule 5 to the Indicative Access Agreement contained in Schedule D to the Undertaking.

ARTC requests that this letter be included on the ACCC's website and public register to enable it to be viewed by the public in conjunction with the Undertaking.

Regards

David Marchant
Chief Executive Officer
