Dear Sir,

This is just concerning one item and I am sure that there are many more similar cases.

We have noticed that the price of 600ml of milk (Farmers Best) at Coles in the Manly area has risen over the last 6 months from \$2.04 to [\\$2.77](#) . What is the justification for this over 30% increase - I bet the farmers are not getting 30% extra.

Regards

Maggie Gilet
