Subject: Price of Kelloggs All Bran

Hi,

Kellogg's All Bran a 655 grams packet late last year was \$5.15 a packet now it is \$5.59. This is an increase in every packet sold of 44 Cents.

Nestlé's carnation milk 375 mls has also gone up in price considerably over the past couple of years.

I have noticed many other things while shopping in the supermarket. If All Bran is on special in Coles for sure it will be on special in Safeways the next week. There seems to be a pattern.

I hope you can check into this pricing as part of your inquiry.

Thanks for your help

Lyn
