Creating Value for
WESTERN AUSTRALIAN GROWERS

CBH Group farewells Chief Executive Officer at AGM

At the CBH Group's 76th Annual Ordinary General Meeting, held on Wednesday 1 April, 2009, outgoing CEO Imre Mencshelyi received a standing ovation in honor of his significant contribution to the grains industry.

The AGM also gave growers and industry representatives an opportunity to meet new CEO, Andy Crane and discuss his vision for the CBH Group going forward.

WA ships record monthly tonnage in March

The CBH Group shipped a record monthly tonnage of 1.54 million tonnes last month, the most amount of grain ever to be exported out of Western Australia (WA).

The CBH Group is likely to export record tonnages through to the end of August.

More shipping allocations now open

The CBH Group has requested grain exporters submit Expressions of Interest for shipping slots in June, July and August from its four port terminals in Western Australia

The new call for EOIs follows the introduction earlier this month of a temporary revised shipping allocation system to relieve the congestion this year at WA grain ports. Allocations under the first round of EOIs – for the period from April 20 to May 31 – have now been finalised with a total of 1.3 million tonnes scheduled to be shipped over the six-week period.

The second round of shipping slots on offer is for 1 June to 31 August. Marketers wishing to book slots in this time will need to submit their EOIs by 5pm Western Standard Time Friday 27 March 2009.

CBH Group Director Elections finalised for 2009

The Western Australian Electoral Commission (WAEC) has advised the CBH Group that the 2009 Director Elections for the Esperance and Kwinana zones have been finalised.

Current Director and Chairman of the Board, Neil Wandel was re-elected in the Esperance Zone and John Hassell has been elected to replace Director Mick McGinniss in the Kwinana Zone.

We want to serve you better

The CBH Group wants to provide you with better service and better systems, and to do this we need your feedback. Over the next week, all grower-shareholders of the CBH Group will receive a Grower Census pack in the mail containing a survey asking for feedback across a wide range of systems and services.

The Grower Census survey provides growers with the opportunity to have a say on systems such as Grain Express and LoadNet®, as well as the type of information they'd like to receive from the CBH Group. Feedback generated from the census will allow us to improve our business processes and help us communicate more effectively.

Growers will be able to complete the survey when they receive their census pack over the coming week. Simply fill out the survey and return it to the CBH Group using the postage paid envelope provided. Alternatively, growers can complete the survey online by clicking [here](#) or clicking on the adjacent icon titled 'We want to serve you better'.

We look forward to receiving your feedback.

Access to Co-operative Bulk Handling Limited Port Facilities and Services

Co-operative Bulk Handling Limited ("CBH") is willing to provide access to port terminal services to accredited wheat exporters for the export of wheat:

- on terms and conditions set out in any relevant Grain Services Agreement that CBH has with the

relevant accredited wheat exporter, provided the relevant accredited wheat exporter is not in breach of those terms; or

- if no agreement has been entered (either expressly or as a result of acceptance by conduct), on the terms and conditions and upon payment of the prescribed charges set out in the standard Grain Services Agreement until 30 September 2009, provided the accredited wheat exporter is not in breach of those terms.

The procedure for obtaining access to CBH's Port Facilities and CBH's management of the shipping stem is governed by the Grain Services Agreement and CBH's Export Accumulation Guidelines and Port Queue Policy. CBH allocates positions on the shipping stem in accordance with the Export Accumulation Guidelines and the Port Queue Policy with a view to managing each Facility to balance the competing priorities of efficient grain transportation, efficient terminal operation, effective fumigation practices and good service to all shipping customers including accredited wheat exporters.
