Subject: Shipping Allocation Proposal

Dear David, Jaime and Sarah,

Please find attached a copy of a draft proposal for the allocation of shipping capacity. This is currently being discussed with the industry so that we may hopefully arrive at a consensus prior to the start of harvest for 2009/2010. It is not final and therefore CBH will provide further updates in relation to the allocation of shipping capacity when matters become more certain.

If you wish to discuss any aspects of the draft proposal, please do not hesitate to contact me.

Regards

Richard Codling
