
Required Measure 5 – Disconnection Process for Special Services and Special Service Inputs for the SS Classes Ethernet Lite BDSL – P, N and B and Wholesale Business DSL – P, N and B

1 Background

This Required Measure 5 sets out the disconnection process which applies to the Wholesale Business DSL (W-BDSL) (P), (B) and (N) and Ethernet Lite BDSL (P), (B) and (N) Special Service Class(es) and Special Service Inputs that are Service Equivalent to those Special Service Class(es) (referred to in this Required Measure 5 as **Covered SS Classes**) in the W-BDSL and Ethernet Lite BDSL Access Service Families.

In accordance with clause 22.4 of the Plan, the Disconnection Date for the Covered SS Classes is 12 November 2018 (**Special Services Disconnection Date**). The Disconnection Date for the SS Class has been triggered by nbn co. issuing the White Paper titled '*Temporary Special Services White Paper Ethernet-Lite and Wholesale BDSL on the nbn™ Ethernet Bitstream Service*' on 30 September 2015.

In this Required Measure 5, Direct Special Services of a Covered SS Class and Special Service Inputs that are Service Equivalent to a Covered SS Class supplied to Premises within a Rollout Region with a Disconnection Date which is on or before the Special Disconnection Date (and which do not fall within one of the exceptions set out below) are referred to as "**Covered Special Services**".

2 Application

2.1 Application of this Required Measure 5

- (a) For clarity, this disconnection process only applies to the Telstra Services Ethernet Lite BDSL (P), (N) and (B) and Wholesale Business DSL (W-BDSL) (P), (B) and (N) Special Service Classes within each of the Ethernet Lite BDSL and Wholesale Business DSL (W-BDSL) Access Service Families.
- (b) Telstra supplies various products to Wholesale Customers that fall within the Covered SS Classes, including: WBDSL, BDAS Lite, BDAS Standard and Ethernet Access over Copper. Special Service Inputs that have been certified by Wholesale Customers using the code HE/NE (Business DSL) – and have an Access Technology of (P), (N), (B) are the Special Service Inputs that fall within the Covered SS Classes under this Required Measure 5.
- (c) Telstra products supplied to Retail customers that fall within the Covered SS Classes under this Required Measure 5, including: Connect IP Ethernet Lite, Business IP Ethernet Lite, Ethernet Lite, Business Performance Network Ethernet Lite, Connect IP Telephony Ethernet Lite, GBIP Ethernet Lite, IP COIN and 1-Touch Video, TID Ethernet Lite/BDSL and TBB Ethernet Lite.

2.2 Exceptions to this Required Measure 5

- (a) The following are exceptions to the White Paper Disconnection Process in this Required Measure 5:
 - (i) any Access Service Families other than Wholesale Business DSL (W-BDSL) and Ethernet Lite BDSL;

- (ii) any SS Classes other than the Ethernet Lite BDSL (P), (N) and (B) and Wholesale Business DSL (W-BDSL) (P), (B) and (N) Special Service Classes within the Ethernet Lite BDSL and Wholesale Business DSL (W-BDSL) Access Service Families;
 - (iii) Double-Ended Special Services, unless and until the later of the dates by which Telstra is required to disconnect the Premises at the A-end or the Premises at the B end of the Double-Ended Special Service in accordance with clauses 22.8 and 22.11 of the Plan; and
 - (iv) Direct Special Services and Special Service Inputs of a Covered SS Class that terminate at an MDU Common Area, which will be disconnected in accordance with clause 1.4 of the Plan.
- (b) Subject to clause 3.2 of this Required Measure 5 (and where this document refers to the disconnection processes in Required Measure 2), the disconnection processes in this Required Measure 5 do not apply to Direct Special Services and Special Service Inputs in a Covered SS Class if the Disconnection Date for the Rollout Region is after the Disconnection Date for the SS Class. The standard rules for disconnecting Services, including the standard rules for applying cease sale and an order stability period, will apply to those Direct Special Services and Special Service Inputs as they apply to any other services supplied to a Premises in that Rollout Region, as set out in clause 22.8 of the Plan.

2.3 Application of this Required Measure 5 is dependent on data from nbn co. and may be subject to change

- (a) The application of the cease sale, order stability period and managed disconnection processes in this Required Measure 5 to a particular Premises within a Rollout Region are based on the most current information Telstra has received from nbn co. This information relates to the underlying Access Technology nbn co. has used or proposes to use to make an individual Premises NBN Serviceable at the time the relevant assessment under this Required Measure is made. The application of this Required Measure 5 to a particular Premises may subsequently change as Telstra receives further information from nbn co., for example if the Premises becomes a Changed Technology SS Premises.

3 Disconnection Date for the SS Classes

3.1 Disconnection Date for each Covered SS Class of Direct Special Service

- (a) The Disconnection Date for each Covered Special Service is the Special Services Disconnection Date.
- (b) If the Disconnection Date for the Rollout Region is after the Special Services Disconnection Date, the standard rules for disconnecting Services will apply to the Special Services and Special Service Inputs as they apply to any other services supplied to a Premises in that Rollout Region, in accordance with clause 22.8 of the Plan. This means that the standard disconnection processes and timeframes set out in clauses 14 and 15 of the Plan and Required Measure 2 will apply to those Services.
- (c) Where after the Disconnection Date for a Rollout Region nbn co. notifies Telstra of a change in the Access Technology to make a Premises within the Fixed Line Footprint in that Rollout Region NBN Serviceable (**Access Technology Change Notification**) and Telstra is entitled to continue to supply the Direct Special Service and Special Service Inputs in a Covered SS Class in accordance with clause 22.13 of the Plan, Telstra will

disconnect the Direct Special Service and Special Service Inputs in a Covered SS Class in accordance with clause 9.3 of this Required Measure.

3.2 Final Exit Date

(a) Notwithstanding the Special Services Disconnection Date, Telstra may decide to exit any remaining Direct Special Services and Special Service Inputs that are in a Covered SS Class on a national basis, regardless of where the Premises is located or the Access Technology used or proposed to be used to connect a particular Premises to the NBN, if in Telstra's reasonable view:

- (i) the platform or equipment used to support the product becomes unstable or becomes unsupported by Telstra's vendors or assurance processes; or
- (ii) the aggregate volumes of the Direct Special Services and Special Service Inputs that are in a Covered SS Class supplied to Telstra's customers mean that it is no longer commercially viable to support the product,

(Final Sunset Exit).

(b) If Telstra decides to announce a Final Sunset Exit in accordance with clause 3.2(a):

- (i) the exit must occur after the Special Services Disconnection Date **(Final Sunset Exit Date)**;
- (ii) the Final Sunset Exit Date must be the same in respect of Retail Customers and Wholesale Customers;
- (iii) Telstra must ensure that:
 - (A) the Final Sunset Date is the same for Retail Customers and Wholesale Customers (if the exiting Covered SS Class is supplied to both Wholesale and Retail Customers); and
 - (B) not less than 18 months prior notice of the Final Sunset Exit Date for the Covered SS Class (unless Telstra agrees a shorter notice period with a Wholesale Customer).

4 Commencement of cease sale for Special Services and Special Service Inputs

4.1 The SS Cease Sale Period for the Covered SS Classes

The SS Cease Sale Period for the Covered SS Classes is the period commencing on and from 12 May 2018 up until the Special Services Disconnection Date.

4.2 Commencement of cease sale

(a) **SS/SSI in a Rollout Region which is already subject to cease sale (prior to commencement of the SS Cease Sale Period)**

In a Rollout Region whose Cease Sale Commencement Date occurred before commencement of the SS Cease Sale Period for the SS Class (i.e. the Rollout Region is already subject to cease sale before the SS Cease Sale Period commences for the relevant SS Class), Telstra will

not supply new Direct Special Services or Special Service Inputs in a Covered SS Class after commencement of the SS Cease Sale Period.

- (b) **SS/SSI in a Rollout Region which only becomes subject to cease sale during or after the SS Cease Sale Period**

In a Rollout Region whose Cease Sale Commencement Date occurs during or after the SS Cease Sale Period, Telstra will not supply any new Direct Special Services or Special Service Inputs in a Covered SS Class after the Cease Sale Commencement Date (i.e. cease sale applies from the ordinary Cease Sale Commencement Date for the Rollout Region).

4.3 Equivalent application of cease sale to Wholesale Customers

The SS Cease Sale Period and the Cease Sale Commencement Date will commence on the same date, be of the same duration and will apply in the same manner, irrespective of whether the customer is a customer of a Retail Business Unit or of Wholesale Business Unit.

5 SS Order Stability Period

5.1 Commencement of the SS Order Stability Period

- (a) Telstra will apply an SS Order Stability Period from the date that is 20 Business Days before the Special Services Disconnection Date for the SS Class until the date that is 25 Business Days after the Special Services Disconnection Date.
- (b) If a Premises is a Changed Technology SS Premises, in accordance with clause 22.15 of the Plan, any SS Order Stability Period which applied to the previous Disconnection Date will be lifted and the extended date for disconnection under the Plan will be treated as the relevant Disconnection Date for the purposes of applying a SS Order Stability Period.

5.2 Exceptions to the SS Order Stability Period

During the SS Order Stability Period for the Covered SS Classes, Telstra will not process any order types in respect of the supply of Copper Services to Premises within the Fixed Line Footprint in a Rollout Region used as a Direct Special Service or Special Service Input, except:

- (a) orders for disconnection of Covered Special Services (including service requests which result in or are associated with disconnection);
- (b) order types listed in Attachment A; and
- (c) order types for Covered Special Services that are subject to an Order Stability Proposal which has been implemented.

6 Communication with Wholesale Customers prior to Disconnection Date for the SS Class

6.1 Notification of disconnection to Wholesale Customers where the Disconnection Date for the Rollout Region is after the Special Services Disconnection Date

- (a) Where the Disconnection Date for a Rollout Region is after the Special Services Disconnection Date for a Covered SS Class, Telstra will notify Wholesale Customers of those relevant Services which Telstra expects to be subject to disconnection in accordance with the communication process set out in clause 3 of

Required Measure 2, with the exception that the basis on which a Wholesale Customer may dispute the inclusion of a Service on the Preliminary Disconnection List as set out in clause 6.4(g), below.

6.2 Preliminary SS Disconnection List notified to Wholesale Customers

- (a) Where Telstra continues to supply a Covered Special Service to a Wholesale Customer 9 months before the Special Services Disconnection Date, not less than 8 months before the Special Services Disconnection Date, Telstra will notify that Wholesale Customer of those relevant Services which Telstra expects to be subject to disconnection during the SS Principal Disconnection Window (**Preliminary SS Disconnection List**), whether or not Telstra had already provided earlier notification of disconnection to that Wholesale Customer.
- (b) Notification of the Preliminary SS Disconnection List to Wholesale Customers will occur no later than when the equivalent information is made available to Retail Business Units.

6.3 6 Month SS Disconnection Lists notified to Wholesale Customers

- (a) Where Telstra continues to supply a Covered Special Service to a Wholesale Customer 6 months before the Special Services Disconnection Date for that SS Class, Telstra will notify that Wholesale Customer of those relevant Services which Telstra expects to be subject to disconnection during the SS Principal Disconnection Window (**6 Month SS Disconnection List**), whether or not Telstra had already provided earlier notification of disconnection to that Wholesale Customer.
- (b) Telstra will use reasonable efforts to notify Wholesale Customers of the 6 Month SS Disconnection List within 5 Business Days of the 6 Month SS Disconnection List being produced by Telstra Operations, and in any event, notification to Wholesale Customers will occur no later than when the equivalent information is made available to Retail Business Units.

6.4 Dispute process

- (a) Within 20 Business Days of Telstra providing it with a 6 Month SS Disconnection List, a Wholesale Customer may notify Telstra of any Premises or Services on the 6 Month SS Disconnection List which the Wholesale Customer considers should not be subject to Managed Disconnection during the SS Principal Disconnection Window due to:
 - (i) a data error in respect of the service information associated with a Premises on the 6 Month SS Disconnection List;
 - (ii) the Service acquired by the Wholesale Customer being a Double Ended Special Service where the Disconnection Date for the SS Class is not the later of the dates on which Telstra is required to disconnect the A end Premises or B end Premises under clause 22.8 of the Plan;
 - (iii) the Service acquired by the Wholesale Customer is a Direct Special Service or Special Service Input that is not in a Covered SS Class (for example, the Direct Special Service forms part of the DDS Fastway Access Service Family); or
 - (iv) the Service acquired by the Wholesale Customer is supplied to a Premises that was notified to Telstra as a Changed Technology SS

Premises before the date that is 6 months prior to the Disconnection Date for the SS Class.

- (b) At any time prior to Managed Disconnection, a Wholesale Customer may notify Telstra of any Premises or Services on the 6 Month SS Disconnection List, a Further SS Disconnection List or the SS Final Disconnection List which the Wholesale Customer considers should not be subject to Managed Disconnection due to the Premises to which the Service is being supplied being a Changed Technology SS Premises after the date that is 6 months prior to the Disconnection Date for the SS Class.
- (c) The Wholesale Customer may not raise a dispute in respect of Service or Premises on the 6 Month SS Disconnection List on any basis other than as set out in subparagraph (a) and (b) above. For clarity, any concern as to whether or not a relevant Premises is passed or NBN Serviceable should be referred by a Wholesale Customer to nbn co.
- (d) Telstra will respond to any dispute notified to it by a Wholesale Customer under clause 6.4 within 20 Business Days of receiving notice (or as extended by agreement with the Wholesale Customer) and will notify the Wholesale Customer whether or not Telstra agrees to reflect the requested change in the 3 Month SS Disconnection List.
- (e) If Telstra does not agree to reflect the change in the 3 Month SS Disconnection List, as requested by a Wholesale Customer, the parties will use reasonable endeavours to resolve the issue.
- (f) If the parties have failed to resolve a dispute as to whether a Service or Premises is to be included in the 3 Month SS Disconnection List by the date which is 5 Business Days before the 3 Month SS Disconnection List is due to be notified to Wholesale Customers under clause 6.5(c), then Telstra is permitted to include the disputed Service or Premises in the 3 Month SS Disconnection List for that SS Class.
- (g) If the Special Service or Special Service Input is in a Covered SS Class in a Rollout Region which has a Disconnection Date which is after the Disconnection Date for the SS Class, then the Dispute process set out in clause 3.2 of Required Measure 2 will apply, except that a Wholesale Customer may only raise a dispute in respect of a Premises on the Preliminary Disconnection List in accordance with clause 3.2(a)(i) and (ii) of Required Measure 2 if:
 - (i) the Wholesale Customer has previously certified that services which it supplied at the relevant Premises are Special Service Inputs that are not in a Covered SS Class;
 - (ii) the Service acquired by the Wholesale Customer from Telstra in respect of the relevant Premises is a Direct Special Service that is not a Direct Special Service or Special Service Input in a Covered SS Class; or
 - (iii) the Service acquired by the Wholesale Customer is supplied to a Premises that was notified to Telstra as a Changed Technology SS Premises.

6.5 Further SS Disconnection Lists notified to Wholesale Customers

- (a) Telstra will update the 6 Month SS Disconnection List each month up until the date that is two months before the Special Services Disconnection Date to include any active Covered Special Service Telstra continues to supply to a Wholesale Customer which Telstra expects to be subject to disconnection during the SS Primary Disconnection Window (**Further SS Disconnection Lists**).
- (b) Where Telstra continues to supply a Covered Special Services to a Wholesale Customer that is included on a Further SS Disconnection List, Telstra will notify that Wholesale Customer of that Further SS Disconnection List, irrespective of whether or not Telstra had already provided any earlier notification of disconnection to that Wholesale Customer.
- (c) Telstra will use reasonable efforts to notify Wholesale Customers of each Further SS Disconnection List within 5 Business Days of the relevant Further Disconnection List being produced by Telstra Operations, and in any event, notification to Wholesale Customers will occur no later than when the equivalent information is made available to Retail Business Units.
- (d) Notification to Wholesale Customers will be provided via the Wholesale Customer Portal.
- (e) The Further SS Disconnection List updated at the date that is 3 months prior to the Special Services Disconnection Date is also known as the 3 Month SS Disconnection List.

7 Commencement of Disconnection of Special Services

7.1 SS Final Disconnection List

- (a) As soon as Telstra is notified by nbn co. of Premises that do not form part of the final Fixed Footprint List, Telstra will update its database accordingly.
- (b) Telstra Operations will create a list specifying all the Direct Special Services and Special Service Inputs in a Covered SS Class that remain active at Premises in the final Fixed Footprint List, as understood by Telstra as at the date that is 1 month before the Special Services Disconnection Date (the **SS Premises Address List**).
- (c) Following creation, the SS Premises Address List will have the following Premises and Copper Services removed:
 - (i) Direct Special Services and Special Service Inputs within SS Classes for which a Disconnection Date will not occur before the Special Services Disconnection Date;
 - (ii) Double Ended Special Services, for which disconnection is not yet required in accordance with the disconnection arrangements under the Plan;
 - (iii) any Covered Special Services which have become Changed Technology SS Premises during the period that is 6 months prior to the Rollout Region Disconnection Date and that Disconnection Date that qualify for an extension of disconnection under clause 22.13 of the Plan; and

- (iv) any Copper Services supplied to Affected Premises in the Rollout Region on the Disconnection Date for the SS Class but only to the extent that Telstra is prevented by law from ceasing the provision of those Copper Services to that Affected Premises and disconnecting the Premises;

and will be the **SS Final Disconnection List** for the Covered SS Class(es).

- (d) For clarity, MDU Common Areas will not be included in the SS Final Disconnection List provided that Telstra has been notified by NBN Co that a relevant Premises is an MDU Common Area.

7.2 Final Notification for Wholesale Customers before the Disconnection Date

- (a) Telstra Operations will provide the SS Final Disconnection List to Telstra Wholesale.
- (b) Telstra Wholesale will notify Wholesale Customers of any Wholesale Services supplied at Premises on the SS Final Disconnection List that are to be disconnected in the course of Managed Disconnection during the SS Principal Disconnection Window for that SS Class.
- (c) Telstra will use reasonable efforts to notify Wholesale Customers of the SS Final Disconnection List within 5 Business Days of the SS Final Disconnection List being produced by Telstra Operations, and in any event, notification to Wholesale Customers will occur at the same time as, or before, any notification of the SS Final Disconnection List to a Retail Business Unit.
- (d) Notification to Wholesale Customers will be provided via the Wholesale Customer Portal.

8 Managed Disconnection of Special Services and Special Service Inputs

8.1 Managed Disconnection

- (a) For the purposes of this Required Measure, the **SS Principal Disconnection Window** refers to the period on and from 1 Business Day after the Special Services Disconnection Date up to and including the date that is 25 Business Days after the Special Services Disconnection Date.
- (b) Telstra will disconnect:
 - (i) all Covered Special Services that are required to be disconnected as set out in the SS Final Disconnection List during the SS Principal Disconnection Window; and
 - (ii) all other Direct Special Services and Special Service Inputs in a Covered SS Class in accordance with the specific disconnection arrangements set out in clause 9 of this Required Measure 5.
- (c) Disconnections during the SS Principal Disconnection Window will occur in two stages:
 - (i) service disconnection; followed by,

- (ii) permanent disconnection.

The process involved in each stage is described in clauses 8.2 and 8.4.

8.2 Service disconnection

- (a) Upon receiving the SS Final Disconnection List from Telstra Operations (in accordance with clause 7.2(a) of this Required Measure), Telstra will commence the disconnection of all services supplied to a Telstra Retail or Telstra Wholesale customer on the date that is 1 Business Day after the Special Services Disconnection Date and where practicable, complete disconnection of these services by the date that is 5 Business Days after the Disconnection Date (**SS Service Disconnection Phase**).
- (b) Telstra Wholesale and Telstra Retail Business Units carry out the Service Disconnection Phase in order to prepare all relevant Covered Special Services that appear on the SS Final Disconnection List for permanent disconnection, for example by:
 - (i) rejecting and removing all pending orders from Telstra's systems;
 - (ii) carrying out all required steps to disconnect the Copper Services in Telstra's provisioning and billing systems; and
 - (iii) monitoring and managing any errors occurring during the first two steps (i) and (ii) above throughout the Service Disconnection Phase.

8.3 Reconnection where disconnection not required

- (a) For clarity, nothing in this Required Measure 5 limits Telstra's ability to build a new Copper Path or Reconnect a Copper Path to a Premises where the pre-existing Copper Path was not required to be disconnected in accordance with clause 19 of the Plan.

8.4 Permanent disconnection

- (a) After the Service Disconnection Phase and up until the end of the SS Principal Disconnection Window, Telstra Operations will perform permanent disconnection of the relevant Copper Paths within Telstra's systems for all Covered Special Services that appear on the SS Final Disconnection List.
- (b) Permanent disconnection of all Covered Special Services appearing on the SS Final Disconnection List will occur regardless of activities completed during the preceding Service Disconnection Phase.
- (c) Telstra Operations will manage the permanent disconnection processes on a day-to-day basis during the permanent disconnection phase to efficiently allocate available resources and respond to operational issues as they arise. This may require Telstra to change the sequencing of disconnection of Services on the SS Final Disconnection List during the permanent disconnection phase. Telstra is not required to assign a specific date for permanent disconnection of each Service within the SS Principal Disconnection Window.
- (d) All permanent disconnections occurring during the permanent disconnection phase will be processed by Telstra Operations without regard to whether the

Copper Service is supplied to a customer of a Retail Business Unit or a Wholesale Business Unit.

- (e) Telstra will monitor each Rollout Region to ensure that all Covered Special Services on the SS Final Disconnection List are permanently disconnected by as soon as reasonably practicable after the end of the SS Principal Disconnection Window.
- (f) Where disconnection orders are identified as having not been processed due to an error, these will then be corrected and re-submitted into Telstra's systems. A check will be conducted to ensure the service is disconnected. This process will be repeated until the relevant Covered Special Service is permanently disconnected.

9 Disconnection of Remaining Premises

9.1 Disconnection of Direct Special Services and Special Service Inputs in a Covered SS Class where the Rollout Region Disconnection Date is after the Special Services Disconnection Date

- (a) In accordance with clause 22.8 of the Plan, if the Disconnection Date for a Rollout Region is after the Special Services Disconnection Date (12 November 2018), then Telstra will:
 - (i) continue to supply, and accept new orders for, Copper Services in that Covered SS Class that are not either NBN Serviceable or a Frustrated Premises;
 - (ii) not accept orders for the supply of new Copper Services in that Covered SS Class at Premises that are either NBN Serviceable or a Frustrated Premises; and
 - (iii) disconnect any existing Copper Services in that Covered SS Class following the Disconnection Date for that Rollout Region,

in accordance with the process that applies to Copper Services which are not Special Services in that Rollout Region.

9.2 Types of Premises removed from the Updated Final Disconnection List

- (a) In addition to the Premises referred to in clause 7.1(c), the following types of Premises and Copper Services within the Fixed Line Footprint in a Rollout Region will not be subject to Managed Disconnection during the SS Principal Disconnection Window:
 - (i) Added Premises;
 - (ii) Affected Premises (in the Rollout Region on the Disconnection Date for the Rollout Region but only to the extent that Telstra is prevented by law from ceasing the provision of those Copper Services to that Affected Premises);
 - (iii) Special Services, including:

- (A) Direct Special Services and Special Service Inputs (to the extent that these Services belong to a SS Class for which the applicable Disconnection Date has not yet occurred); and
- (B) Double-Ended Special Services (that are not otherwise due to be disconnected during the Primary Disconnection Window in accordance with the Plan); and

(iv) MDU Common Areas,

but will instead be disconnected in accordance with specific rules applicable to each category.

9.3 Disconnection of Special Services in a Covered SS Class where there is a change of Access Technology

- (a) If Telstra is notified of a change in the Access Technology used or proposed to be used to make a Premises NBN Serviceable on and from the date that is 6 months before the Disconnection Date for the Rollout Region and Telstra is supplying a Direct Special Service or Special Service Input to that Premises at the date of nbn co.'s notification and it becomes part of a Covered SS Class, then:
 - (i) Telstra may continue to supply the Service to the Changed Technology SS Premises in accordance with clause 22.13 of the Plan; and
 - (ii) unless clause 22.13(a)(ii)(A) applies, the disconnection processes and communications regarding disconnection in Required Measure 2 will apply to the Covered Special Service as though they were standard Copper Services.
- (b) If Telstra is notified of a change in the Access Technology used or proposed to be used to make a Premises NBN Serviceable on and from the date that is 6 months before the Disconnection Date for the Rollout Region and Telstra is supplying a Direct Special Service or Special Service Input in a Covered SS Class to that Premises at the date of nbn co.'s notification which, following the change in Access Technology, no longer forms part of a Covered SS Class, then:
 - (i) Telstra may continue to supply the Service to the Changed Technology SS Premises in accordance with clause 22.13 of the Plan; and
 - (ii) If Telstra is required to disconnect the Direct Special Service or Special Service Input, the disconnection processes and communications regarding disconnection in a Required Measure 5 specific to that SS Class will apply to the Service. The Required Measure 5 specific to that SS Class may refer to the disconnection processes and communication of disconnection in Required Measure 2, depending on when the Service will be disconnected.

9.4 Disconnection of Added Premises

- (a) Added Premises to which a Covered Special Service is supplied will be disconnected in accordance with clause 7.2 of Required Measure 2.

9.5 Disconnection of Affected Premises

- (a) Telstra will disconnect Affected Premises to which a Covered Special Service is supplied in accordance with clause 7.3 of Required Measure 2.

9.6 Disconnection of MDU Common Areas

- (a) In accordance with the Plan, Telstra will not disconnect Covered Special Services supplied to an MDU Common Area under clause 22 of the Plan but will disconnect such Services in accordance with clause 1.4 of the Plan.
- (b) Telstra will prepare and publish a separate document setting out the process it will apply to the Managed Disconnection of MDU Common Areas 6 months before the End of Rollout Date.

10 Reporting

- (a) Telstra will report quarterly to the ACCC as part of its Migration Plan Compliance Report, in respect of Premises within the Fixed Line Footprint of Rollout Regions falling in each SS Class, aggregated across the relevant Access Service Family:
 - (i) the total number of Covered Special Services estimated at key dates for the period that is 9 months before the Special Services Disconnection Date until the date that is 25 Business Days after the Special Services Disconnection Date;
 - (ii) the total number of Covered Special Services permanently disconnected at key milestone dates identified by Telstra after the Special Services Disconnection Date up until the date that is 25 Business Days after the Special Services Disconnection Date.
- (b) Telstra will commence reporting under clause 10(ii) from the end of the first full Quarter after this Required Measure 5 is accepted by the ACCC.

Attachment A – Excluded SS Order Types

Order Description	Service Restriction application from the Order Stability Commencement Date
Apply exchange based barring and suspension	<p>These order types will not be blocked during the SS Order Stability Period for both Wholesale and Retail customers. Note that Telstra's business-as-usual timeframes will apply to the processing of any orders received during the SS Order Stability Period. In the event the order is received and not completed prior to Managed Disconnection, the service will be disconnected as per the disconnection requirements.</p>
<p>Order and service remediation, reversals, reconnections for error or credit management purposes</p> <p>Any remediation needed to provide service continuity during the SS Order Stability Period. For example, where it becomes evident an error was made in provisioning, where a service is incorrectly ported out causing a service disconnection which then needs to be restored, credit management issues arising from the need to restore services that have previously been barred or suspended due to credit purposes, fault rectification and / or service restoration.</p>	
<p>Orders that are received prior to the Order Stability Period Commencement Date</p> <p>For example, In-flight orders.</p>	
<p>Bulk churns or transfers of copper services arising from industry mergers and acquisitions</p>	
<p>Orders for configuration, software and record changes to services.</p> <p>Both Wholesale and Retail customers will be able to place orders for configuration, software and record changes during the SS Order Stability Period.</p>
