Dear Emma,

RE: Methodology for the Revaluation of the Interstate Network

Further to our ongoing discussions with the ACCC in respect of the appropriately methodology for the revaluation of the Interstate Network, ARTC understands that the ACCC wishes to undertake a stakeholder consultation on this critical matter.

ARTC is fully supportive of this consultation. To assist the ACCC in this engagement, ARTC is happy to provide the attached paper outlining its proposal as to why the revaluation of the Interstate Network is the most efficient process going forward given the fundamental changes to the network since 2008.

For further information regarding this proposal please contact Jonathan Teubner on (08) 8217 4248 or jteubner@ARTC.com.au (email).

Yours sincerely

Simon Ormsby
Group Executive, Strategy and Corporate Development
