RE: INTERIM PRICE AMENDMENTS – ARFF SERVICES

We write in response to the ACCC preliminary view Draft price notification ARRF services dated 18 May 2005.

Aeromil group support the preliminary view as proposed with the ASA amendments for the period through December 31 as they fairly address the concerns we had raised on behalf of activities at the Sunshine Coast Airport.

We will work with the ASA in the ongoing consultative process to seek a workable long term policy for this airport.

Kind regards,

Robert S Hart
Company Secretary
