Dear Sirs/Madams,

I am sadly unable to attend in August but would hope that a few things are raised to be discussed. I will attempt to point form these for easier reading....

- rural costs are significantly higher in NSW over our city counterparts yet endure extensive and regular outages to our supplies.
- solar costs are irregular and unfair as soon as you tell a provider that you're in NSW.
- please also look into the fact that our electricity bills were supposed to be getting lower not higher.... this needs to be addressed.

Please do not hesitate to contact me at any time if you require any further information.

Yours truly
