Re ACCC further consultation on FOAS and FTAS service descriptions

Aussie Broadband Limited (**Aussie Broadband**) welcomes the opportunity to respond to the ACCC's proposed amendments to the service descriptions of the Fixed Originating Access Service (FOAS) and Fixed Terminating Access Service (FTAS).

Aussie Broadband agrees with the amended service descriptions of both FOAS and FTAS, and we note that the revisions now more accurately reflect the position of Aussie Broadband in our early responses to the draft inquiry report.

Warm regards,
