Dear Mr Wright,

**Notification of completion of consultation on replacement Required Measure 5(B) and intention to publish**

In accordance with clause 5.2(c) of the Migration Plan, we are writing to notify you that consultation period for the proposed replacement Required Measure 5(B) (**RM 5(B)**) for CustomNet Spectrum has now concluded.

We are pleased to advise that we have not received any concerns from Wholesale Customers on this replacement RM 5(B). nbn co identified a small number of minor drafting points in RM 5(B) that ensured consistency with RMs 5(A), 5(C), 5(D) and 5(E) and other relevant documents. We have engaged directly with nbn co on these points to resolve the drafting, and those additional changes that have been accepted are highlighted in yellow outline in the marked-up version of RM 5(B) attached.

Should the ACCC wish to provide any feedback on this replacement RM 5(B), we request that this feedback please be provided by Monday 21 January 2019. We note that the ACCC is not required to approve replacement RM 5(B), but may object if it does not comply with the Migration Plan Principles. This notice period equates to 19 business days which aligns with the requirement in the Migration Plan that the notice period not be not less than 15 business days. Subject to any objections from the ACCC, Telstra then proposes to publish this replacement RM 5(B) on Thursday 24 January 2019.

Clean and marked-up versions of replacement RM 5(B) are attached to allow you to publish them on the ACCC's website.

Please do not hesitate to contact Peter Walsh on (03) 8694 3854 if you would like to discuss any of these documents.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Jane - 3'.

Jane van Beelen  
Compliance & Regulatory Affairs Executive  
Legal and Corporate Affairs
