Very as we have one income and a young family

You could also tell us: Where you live, how much choice is there between insurers? Do you think different insurers offer different policies (i.e. is coverage different)? :

There is alot of choice. Only one refused to insure us. However most tried to push us to raise our excess to 5 or 10 thousand to bring the premiums down

3. What are you covered for?

You could also tell us: Can you get the sort of insurance you want? Do you want flood insurance? How confident are you that you know what you are covered for and what limits you have? If you have made a claim, were you covered for what you thought you were?:

From the pds i would say we have cover for what i wanted which is fire theft any water damage and cyclone. Those are my main concern. How ever the cost is difficult

5. Have you seen an insurer behaving in way that you think is unfair or confusing? :

Every insurers pds is confusing.

6. Has an insurer told you that they won't insure you or renew your insurance policy? If they have, what were the reasons they gave you?

6. Has an insurer told you that they won't insure you or renew your insurance policy? If they have, what were the reasons they gave you?:

7. What information does your insurer give you and how useful is it?

You could also tell us: Does your renewal notice say if price has changed and the reason? Does it say how premiums are calculated? What could insurers do to make it easier to understand their products? :

Clearly show the last years premiums against the new years, and clearly explaining why excessive increases are made

8. Where else do you see or look for information?

You could also tell us: How much effort is it to look for better or cheaper policies? What sort of advertising do you see? Have you used websites, tools or calculators? If you live in Queensland, have you heard about or used the North Queensland Home Insurance website? What did you think about it?:

I check reviews online and on social media.

9. Have you used, or thought about using, a broker? Why or why not?

You could also tell us: Did it make it easier for you to get a policy that you were more confident suited your needs?:

I have thought about it however I did the calling around and research myself.

10. Is there information to meet the needs of all consumers?

You could also tell us: Who can you ask if you need help understanding insurance? Is there information for people who are unable to read or write or use a language other than English? Do insurers have an office in your area or do they visit? Is mail, phone or internet access an issue in remote areas?:

Yes and no depending on which company you go through

Was it a lot of effort? How does the use of standard definitions, such as for 'flood', make it easier to compare? Was your focus on price or coverage or both? Did you use a broker to help you? :

Yes I have 3 times. Due to cost. Our premium went from 1800 to 4400 in one year. I got a quote from Suncorp this year for 9200!! For a 3 bedroom home (nothing fancy)

What can households and insurers do to make insurance more affordable?

14. Have you considered renovating or altering your home, or building a new home to, to reduce the risk of storm or cyclone damage? Did you go ahead?

You could also tell us: How did you find out about building for your local conditions? How did you decide that it was a 'worthwhile' investment? If you made any alterations, did this have any impact on your insurance premium? Has it already, or will it, save you money in the long run?:

The only thing I could do is relocate my house away from Mackay it would seem.

15. What are insurers doing to make it easier and could they do more?

You could also tell us: Would your premium be lower if you made your house or belongings safer? Can you pay fortnightly or monthly and how much extra does it cost to do so? Does your insurer offer Centrepay to eligible customers? Have you seen new or different policies to target particular consumers, such as tenants, households on a low income, or people with only a small amount to insure? :

They have monthly payments however they incur an extra fee. When you're being quoted almost 10000 for a property (including land) worth 270000.....all they can do is make the amount more reasonable

16. What are you doing to manage the cost of insurance?

You could also tell us: Have rising premiums motivated you to spend more effort looking for better policy options? Have you, or would you, reduce your level of coverage to save? Who else can you get help from?:

I have unfortunately had to under insure my contents and if we had to rebuild the payout amount would be cutting it very very close

Other issues**17. If you have a view or experience to share that you haven't already covered in another question, please tell us about it. (Optional)**

If you have a view or experience to share that you haven't already covered in another question, please tell us about it.:

I dont feel the insurance companies listen. In 2008 when all of mackay flooded we made a claim. It was a small one. This flood was many things in the making amd unlikely to occur again anytime soon. We didnt have water inside our main living areas. They dont care. As soon as the see 4740 we pay top dollar
