

The Board of Management for the Man From Snowy River Bush Festival would like to support the ACCC draft decision on Regulated Mobile Roaming in the Australian market. As we stated in our initial submission we believe the impact on remote areas and events (such as ours) of Regulated Mobile Roaming, is that it would effectively deter companies (eg Telstra) from investing in remote regions such as Corryong and surrounds as the returns to them would be seriously affected. This draft decision reaffirms this belief and we would now ask that you confirm this decision as soon as possible as mobile services for regions such as ours are vital and ongoing investment is critical.

Kind Regards,

Jennifer Boardman

Coordinator

Man From Snowy River Bush Festival
