

3 Year SAU Pricing Roadmap

[Price Transition Date] to 30 June 2026

Note: This indicative Pricing Roadmap is provided to facilitate the assessment of **nbn's** proposed variation to its Special Access Undertaking (**SAU Variation**) lodged in August 2023. **nbn's** SAU Variation proposal provides that **nbn** must publish a Pricing Roadmap each year, with the first Pricing Roadmap to be published no later than one month before the Price Transition Date and to take effect on and from the Price Transition Date.

This document includes placeholders for the "Second SAU Variation Date" and "Price Transition Date". These dates are dependent on **nbn's** SAU Variation proposal being accepted by the ACCC. If the SAU Variation is accepted by the ACCC, these dates will be included when publishing the first Pricing Roadmap under the varied SAU by no later than one month before the Price Transition Date.

NBN Co is a wholesaler and this Pricing Roadmap is published pursuant to NBN Co's Special Access Undertaking, which is a regulatory undertaking given to the ACCC. NBN Co does not control prices charged by service providers. The wholesale prices in this document are exclusive of GST.

References to speeds or bandwidth profiles in this document are not to end customer speeds; they are wholesale layer 2 peak information rate (PIR) bandwidth provided to retail providers unless stated otherwise. An end customer's experience, including the speeds actually achieved over the **nbn**® network, depends on the **nbn**® network technology and configuration over which services are delivered to their premises, whether they are using the internet during the busy period, and some factors outside of NBN Co's control (like their equipment quality, software, chosen broadband plan, signal reception, or how their provider designs its network). 3 Year SAU Pricing Roadmap: [Price Transition Date] to 30 June 2026

Introduction

*Note: This section contains the type of introductory wording that **nbn** intends to include in the first Pricing Roadmap published under the SAU, if **nbn**'s SAU Variation is accepted by the ACCC. Wording will be updated to reflect actual dates once known.*

This Pricing Roadmap is published pursuant to clause 2B.2.4 of **nbn**'s Special Access Undertaking, as varied on [Second SAU Variation Date] (SAU). This Pricing Roadmap takes effect on and from [the Price Transition Date].

In developing this Pricing Roadmap, **nbn** has relied on Consumer Price Index (CPI) forecasts in the Statement of Monetary Policy published by the Reserve Bank of Australia (RBA) in May 2023. Specifically, the forecast annual percentage change in CPI used to inform **nbn**'s expectations of the application of the price controls under the revised SAU is 4.5% in December 2023 and 3.2% in December 2024. **nbn** notes that the prices in this Pricing Roadmap for FY25 and FY26 are indicative, and that the SAU price controls which apply to the Tariff List published for those financial years will be based on the actual annual percentage change in CPI published for the December quarter before the relevant financial year.

In this Pricing Roadmap:

- the Prices and CVC inclusions for FY24 correspond with the Prices and CVC inclusions in the SAU Tariff List published by **nbn** for the period [Price Transition Date] to 30 June 2024; and
- the Prices, CVC inclusions and Forecast Average Combined Charges for FY25 and FY26 are indicative and non-binding, subject to the application of the TC-4 Price Relativity Restriction in the SAU.

Capitalised terms in this Pricing Roadmap have the meaning defined in the SAU as varied on [Second SAU Variation Date].

Changes to this Pricing Roadmap

The SAU (on acceptance of the SAU variation) sets out specific circumstances in which **nbn** must update Prices and/or CVC inclusions in the Tariff List for a Financial Year. Where **nbn** updates the Tariff List, it must also update this Pricing Roadmap to maintain consistency, reflecting the changed Price and/or CVC inclusion in the first year of the Pricing Roadmap and any impact on the indicative prices for the second and third years.

For example, the SAU requires **nbn** to update the Tariff List to reflect:

- the Price on introduction of a new offer;
- a change to the Price of a previously Zero-Priced offer made in accordance with the SAU;
- a Price change resulting from the exercise by the ACCC of certain powers under the SAU;
- a Price change resulting from the SAU restriction on TC-4 discounts;
- a determination by **nbn** to reduce the Bundled Offer Ceiling or Price of an existing offer in the Tariff List;
- the withdrawal of a Price for an existing offer; and
- an adjustment to CVC TC-4 inclusions made in accordance with the mechanism set out in the SAU.

nbn will publish a new Pricing Roadmap by 1 May 2024 for FY25, FY26 and FY27. That Roadmap will be subject to the TC-4 Price Relativity Restriction in the SAU and may contain different Prices and CVC inclusions to those set out for FY25 and FY26 in this Pricing Roadmap, including where actual CPI and/or utilisation are different to the CPI and utilisation assumptions used in preparing this Pricing Roadmap.

Notes:

- ¹ Additional Connectivity Virtual Circuit Offer (TC-4) charges apply for CVC TC-4 utilised in conjunction with each of these Bundled TC-4 Offers in excess of any CVC TC-4 inclusion which is part of that Bundled TC-4 Offer (where the utilisation relative to the inclusion is determined on a per-AVC TC-4 Product Component basis).
- ² The Basic Bundled Offer and \$12.00 Monthly Recurring Charge will apply on a pro-rated daily basis for each day of a billing period on which an AVC with the relevant bandwidth profile is used as an input into an Access Seeker Product or Downstream Product which is a broadband service which includes a voice component and utilises 0.1 Mbps of TC-4 (PIR) or less of capacity. On other days, the \$24.40 Monthly Recurring Charge will apply on a pro-rated daily basis.
- ³ These are potential maximum information rates, not peak information rates.
- ⁴ CVC TC-4 Inclusions will be adjusted on 1st July and 1st January in accordance with SAU Clause 2B.5, except that in FY24 there will be a single CVC inclusion adjustment on 1 December 2023 (if the Price Transition Date occurs before 1 January 2024) or otherwise on 1 January 2024.
