Subject: TRIM: Costs of Electricity.

[REDACTED]

I can not understand why the cost has gone up so much. Plus the cost price of the Service fee is a disgrace. I have studied the prices of different companies. And if you go for just a peak price, the Service fee is completely different to your service ugh you go for Peak, off peak and shoulder.

Plus I lost my energy solar rebate down from 60 cents to 5 cents. How can we become more effective wgen we pay a fortune for solar and electrical power. Regards Philip Hodges
