Subject: TRIM: Information.

HP TRIM Record Number: D17/100107

Good Morning,

I would have like to attend but like many small businesses it would be impossible for me to arrive in the Brisbane city in the middle of the week at 5.00 pm. I would have to close my business at approx. 3.00-3.30 pm to even try to achieve the starting time. I thank you for the invitation.

At this point I would like to say that electricity prices are over the top and also the service fees they charge. I wish I could have a monopoly like them and charge what ever I wanted, but because I have real competition that will never happen. I hope the form is a success and something positive is acheived so that all businesses large and small can move forward instead of slowly sinking with a noose around their neck and then disappearing leaving staff and workers without employment.

regards Jeff Richards
