

TEA Model Issues List

Date: 10 September 2008

| Number | Description | TEA Model Version | Module | Importance | Status | Reference to Documentation |
|--------|--|-------------------|-----------------|------------|--------------|---|
| 1 | 100% of ironwork assigned to CAN | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 2 | Calculation of joints at serving pits | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 3 | Calculation of costs of placing pits in normal terrain | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 4 | The cost of Fibre Terminating Frame now included | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 5 | The cost of Air Compressor now included | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 6 | The cost of Voltage Protection Cassettes now included | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 7 | The cost of Customer Lightening Protection now included | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 8 | Cost of cable and hauling cable for 2-pair lead in now excluded | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 9 | Initial Structure for the Air Compressor and the Joint Enclosure Cost for joints for 24 fibre cables input reference | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 10 | Correct SUMIF function | Version 1.0 | Calc-Engine | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 11 | Backtracking in main cable routes | Version 1.0 | TEA-Data | Low | Fix Released | Modifications Included in TEA Version 1.1 |
| 12 | Shared distribution conduit routes | Version 1.0 | TEA-Data | Low | Fix Released | Modifications in v1.2 of the TEA model |
| 13 | Main cable route clean-up | Version 1.1 | TEA-Data | Low | Fix Released | Modifications in v1.2 of the TEA model |
| 14 | Cable limited to 0.64 guage understating costs | Version 1.1 | Eng-Main-Engine | Low | Confirmed | Modifications in v1.2 of the TEA model |
| 15 | Depreciation lives input referencing | Version 1.1 | Calc-Engine | Low | Fix Released | Modifications in v1.2 of the TEA model |
| 16 | IEN and main sharing input applied to 100% rather than 50% of costs | Version 1.1 | Calc-Engine | Low | Fix Released | Modifications in v1.2 of the TEA model |
| 17 | Use of inconsistent access line counts | Version 1.1 | Other | Low | Fix Released | Modifications in v1.2 of the TEA model |

| | | | | | | |
|----|---|-------------|-------|-----|--------------|--|
| 18 | Lightening protection guard wire now in distribution not main | Version 1.1 | Other | Low | Fix Released | Modifications in v1.2 of the TEA model |
| | | | | | | |

List Field Options

| | | TEA Model Version | Module | Importance | Status | |
|--|--|-------------------|-----------------|------------|---------------|--|
| | | Version 1.0 | Eng-Main-Engine | None | New | |
| | | Version 1.0.1 | Eng-Dist-Engine | Unknown | Incomplete | |
| | | Version 1.1 | Calc-Engine | Undecided | Invalid | |
| | | Version 1.1.1 | TEA-Data | Low | Confirmed | |
| | | Version 1.2 | Other | Medium | Triaged | |
| | | Version 1.2.1 | | High | Fix Committed | |
| | | | | Critical | Fix Released | |
