To: Retail Electricity Inquiry
Subject: TRIM: Retail gouging of electricity prices

HP TRIM Record Number: D1778241

Access to retail electricity is fast lifting out of the price range of all on low income. This in my opinion is cruel & inhuman behaviour on the part of wholesalers, retailers and government alike.

It is LONG past time for this gouging to stop. Many on low incomes have given more to society than those on high incomes.

There surely needs to be a median point here, where efficient - and SUFFICIENT - supply (standard or green) is available to everyone . At an affordable price.
