	Topic
October	**Algorithms inter-agency workshop (item 1.1)**
	The purpose of this task is to collate and synthesize existing knowledge of DP-REG's four member organisations – what organisations have already done, and what they know. This can then inform future areas of consideration and/or potential future external engagement.
	For this inter-agency workshop, each agency will present (approx. 15 minutes) on how algorithms may be relevant to their agency jurisdiction, any consideration by their agency of issues related to algorithms to date, potential future areas of interest.

After the presentations, we will discuss next steps including how to best record/communicate the outcomes of the workshop (e.g. by summary minute).

Note agencies may wish to invite other participants from their organisations.
