To whom it may concern

Re: AA1000414 – Council Solutions – submission

We have recently become aware of Council Solutions' application for Collection and the ACCC's Draft Determination.

The ability for our business to grow into new territories is always a priority. The above mentioned application to the ACCC has elements which we believe would make that more difficult.

We understand that the deadline for objections is today. However, there is a lot of information to consider and respond to thoughtfully. As such, we request an extension until Friday, 31 August to respond.

We would also be interested in a conference before the decision is made. This would facilitate a discussion of past experience and evidence to hand, as well as an exploration of the perspectives of all interested parties.

I can be reached for any further enquiries on .

Yours sincerely

Paul Welch
