Subject: AEMO Interim Authorisation dated 24 July 2020: report for period 24 - 30 August 2020

We refer to condition 1 of the interim authorisation granted by the ACCC on 24 July 2020 (**Interim Authorisation**) and the reporting protocol contained in Attachment B of the draft determination and interim authorisation.

Set out below is AEMO's report for the period 24 – 30 August 2020 (**Reporting Period**).

This report can be published on the public register.

1. Material contracts, arrangements, understandings or decisions that rely on the Interim Authorisation

No material contract, arrangement or understanding that relies on the Interim Authorisation was entered into during the Reporting Period.

The following decisions that rely on the Interim Authorisation were made during the Reporting Period:

A meeting between AEMO, AGL, Alinta, AusNet, Department of Environment, Land, Water and Planning, Energy Australia, Origin, Snowy Hydro and Basslink (**Victoria Meeting Participants**) was held on Friday 28 August. The purpose of the meeting was to discuss any potential issues that may arise in relation to maintenance or scheduled outages in Victoria, and the resources required, in light of COVID-19. The Victoria Meeting Participants shared information relating to the timing of proposed maintenance, the skills required and any potential disruptions to planned maintenance due to COVID-19 (such as additional time being required to complete work or issues sourcing labour and/or parts, in particular due to border closures and quarantine requirements). The Victoria Meeting Participants also discussed planned AusNet Services, Basslink and Murraylink transmission outages. The next meeting of Victoria Meeting Participants is scheduled for Friday 4 September 2020.

AEMO also informed the meeting that it was facilitating a further discussion on Monday 31 August between AEMO, AGL, Alinta and Energy Australia specifically to discuss the practical impacts of COVID-19 on occupational health and safety work practices at several Latrobe Valley sites.

2. Update to the Energy Coordination Mechanism

The Energy Coordination Mechanism did not meet during the Reporting Period.

Please don't hesitate to contact me with any queries in relation to this report.

Kind regards

Working days at AEMO: Monday, Tuesday, Thursday and Friday

In response to the COVID-19 pandemic, AEMO has adopted digital and remote ways of working to protect our people and critical operations. Please be aware that most meetings will now be conducted digitally to minimise physical contact and allow business to continue. Given the dramatic increase in load on our systems, please bear with us while we work through any technical issues that may result.
