Subject: AEMO – application for interim and final authorisation [Allens-File-DMS.FID1945853]

Dear Mr McCracken-Hewson and Mr Drake

AEMO – application for interim and final authorisation

We refer to the application for interim and final authorisation submitted to the ACCC on 30 March 2020, as amended by email on 17 April 2020.

Further to Rosannah Healy's discussion with Mr Drake on Wednesday 13 May, AEMO wishes to amend its application for *interim* authorisation (but not its application for *final* authorisation) so that it no longer seeks interim authorisation in respect of the following conduct:

3.2.6 (Gas availability) sharing information for the purposes of assessing whether there are sufficient quantities of gas for electricity generation during the pandemic.

This email can be placed on the public register.

Please don't hesitate to contact me or Rosannah Healy if you have any queries.

Kind regards
Kathryn

Kathryn Hender
