ELECTRONIC LODGEMENT

Dear Sir or Madam

Telstra Corporation Limited - Financial results for the half-year ended 31 December 2021

In accordance with the Listing Rules, I enclose the following, approved by the Board, for immediate release to the market:

1. Appendix 4D – Half-Year Report;
2. Directors' Report;
3. Half-Year Results and Operations Review; and
4. Half-Year Financial Report,

for the half-year ended 31 December 2021.

The enclosed documents comprise the information required by Listing Rule 4.2A and should be read in conjunction with Telstra's Annual Financial Report for the financial year ended 30 June 2021 and any public disclosures made by Telstra in accordance with the continuous disclosure requirements of the Listing Rules and the Corporations Act 2001.

Telstra will conduct an analyst briefing on the half-year results from 9.15am AEDT and a media briefing from 11.00am AEDT. The briefings will be webcast live at <https://www.telstra.com.au/aboutus/investors/financial-information/financial-results>.

A transcript of the analyst briefing will be lodged with the ASX when available.

Authorised for lodgement by:

Sue Laver
Company Secretary

APPENDIX 4D (ASX LISTING RULE 4.2A.3)

HALF-YEAR REPORT

31 December 2021

Telstra Corporation Limited ABN 33 051 775 556

1. Results for announcement to the market

Telstra Group	Half-year ended 31 Dec			
	2021	2020	Movement	
	\$m	\$m	\$m	%
Revenue (excluding finance income) from ordinary activities	10,503	10,984	(481)	(4.4)
Other income	384	1,031	(647)	(62.8)
Total income	10,887	12,015	(1,128)	(9.4)
Finance income	61	29	32	110.3
Profit for the period	743	1,125	(382)	(34.0)
Profit for the period attributable to equity holders of Telstra Entity	698	1,098	(400)	(36.4)
Profit from ordinary activities after tax attributable to equity holders of Telstra Entity	698	1,098	(400)	(36.4)

2. Dividend information

Telstra Entity	Amount per share	Franked amount per share
	cents	cents
Interim ordinary dividend per share	6	6
Interim special dividend per share	2	2
Total interim dividend per share	8	8
Interim dividend dates		
Record date	3 March 2022	
Payment date	1 April 2022	

Refer to note 4.2 to the half-year financial statements and the half-year Directors' Report for other dividend-related disclosures.

3. Net tangible assets per security information

Telstra Group	As at 31 Dec	
	2021	2020
	cents	cents
Net tangible assets per security	69.6	62.1

Net tangible assets are defined as the net assets of the Telstra Group less intangible assets and non-controlling interests. The net assets include both right-of-use assets and corresponding lease liabilities.

The number of Telstra shares on issue as at 31 December 2021 was 11,751 million shares (2020: 11,893 million).

The increase in net tangible assets per security from 31 December 2020 was mainly driven by the disposal of 49 per cent interest in our towers business to non-controlling interests (refer to note 5.1.2 to the half-year financial statements for further details). It also reflected the impact of the on-market share buy-back conducted during the half-year ended 31 December 2021. As part of our capital management program, we announced the return of up to \$1.35 billion to shareholders via an on-market share buy-back to be conducted during the financial year 2022. The shares bought back during the half-year ended 31 December 2021 were subsequently cancelled. Refer to note 4.3 to the half-year financial statements for further details.

Telstra Corporation Limited ABN 33 051 775 556

7. Dividend Reinvestment Plan

The Board has determined that the Dividend Reinvestment Plan (DRP) will operate for the interim dividend in the financial year 2022. The election date for participation in the DRP is 4 March 2022.

Additional Appendix 4D disclosure requirements can be found in the notes to our half-year financial report, the half-year Directors' Report and the Half-year results and operations review lodged with this document.

DIRECTORS' REPORT

In accordance with a resolution of the Board of Directors (the Board), the Directors present their report on the consolidated entity (Telstra Group) consisting of Telstra Corporation Limited (Telstra Entity) and the entities it controlled at the end of or during the half-year ended 31 December 2021. Financial comparisons used in this report are of results for the half-year ended 31 December 2021 compared with the half-year ended 31 December 2020 for income statement analysis, and 31 December 2021 compared with 30 June 2021 for statement of financial position analysis.

Review and results of operations

Information on the operations and the results of those operations for the Telstra Group during the half-year ended 31 December 2021 is set out on pages 1 to 12 of the half-year results and operations review accompanying this Directors' Report.

Dividend

We have updated our Capital Management Framework, effective from 16 September 2021, to include the principles listed in the table below:

No.	Principle
1	Committed to balance sheet settings consistent with an A band credit rating
2	Maximise fully-franked dividend and seek to grow over time
3	Ongoing business-as-usual capex of circa \$3 billion per annum excluding spectrum
4	Invest for growth and return excess cash to shareholders

Since the end of the half-year, the Directors resolved to pay an interim dividend for the financial year 2022 of 8 cents per ordinary share, comprising an interim ordinary dividend of 6 cents and an interim special dividend of 2 cents. The interim dividend will be fully franked at a tax rate of 30 per cent. The record date for the interim dividend will be 3 March 2022, with payment being made on 1 April 2022. From 2 March 2022, shares will trade excluding entitlement to the dividend.

Our final dividend for the financial year ended 30 June 2021 of 8 cents per ordinary share (\$951 million), comprising a final ordinary dividend of 5 cents and a final special dividend of 3 cents, was paid during the half-year ended 31 December 2021. This dividend was fully franked at a tax rate of 30 per cent. The final dividend had a record date of 26 August 2021 and payment was made on 23 September 2021.

The Dividend Reinvestment Plan (DRP) will operate for the interim dividend in the financial year 2022. The election date for participation in the DRP is 4 March 2022.

On-market share buy-back

On 12 August 2021, we announced the intention to return up to \$1.35 billion of net proceeds from the towers business transaction to shareholders via an on-market share buy-back to be conducted during the financial year 2022. During the half-year ended 31 December 2021, we purchased 142 million shares for the total consideration of \$571 million. The shares bought back were subsequently cancelled.

Directors

Directors who held office during the half-year ended 31 December 2021 and until the date of this report were:

Director	Period of directorships
John P Mullen	Chairman since 2016, Director since 2008
Andrew R Penn	Chief Executive Officer and Managing Director since 2015
Eelco Blok	Director since 2019
Roy H Chestnutt	Director since 2018
Craig W Dunn	Director since 2016
Peter R Hearl	Director until 31 December 2021
Bridget Loudon	Director since 2020
Elana Rubin	Director since 2020
Nora L Scheinkestel	Director since 2010
Margaret L Seale	Director until 12 October 2021
Niek Jan van Damme	Director since 2018

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration is on page 2 and forms part of this report.

Rounding of amounts

The Telstra Entity is a company of the kind referred to in the Australian Securities and Investments Commission Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, dated 24 March 2016 and issued pursuant to section 341(1) of the *Corporations Act 2001*. As a result, amounts in this report and the accompanying financial report have been rounded to the nearest million dollars (\$m), except where otherwise indicated.

This report is made on 17 February 2022 in accordance with a resolution of the Directors.

Auditor's Independence Declaration to the Directors of Telstra Corporation Limited

As lead auditor for the review of the half-year financial report of Telstra Corporation Limited for the half-year ended 31 December 2021, I declare to the best of my knowledge and belief, there have been:

- a) No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review;
- b) No contraventions of any applicable code of professional conduct in relation to the review; and
- c) No non-audit services provided that contravene any applicable code of professional conduct in relation to the review.

This declaration is in respect of Telstra Corporation Limited and the entities it controlled during the financial period.

EBITDA	3,466	4,070	(14.8)
Depreciation and amortisation	2,189	2,429	(9.9)
EBIT	1,277	1,641	(22.2)
Net finance costs	238	307	(22.5)
Income tax expense	296	209	41.6
Profit for the period	743	1,125	(34.0)
Profit attributable to equity holders of Telstra	698	1,098	(36.4)
Capex ¹	1,386	1,421	(2.5)
Free cash flow	1,324	2,666	(50.3)
Earnings per share (cents)	5.9	9.2	(35.9)

1. Capex is defined as additions to property, plant and equipment and intangible assets, excluding expenditure on spectrum and guidance adjustments, externally funded capex, and capitalised leases. Capex is measured on an accrued basis

Reported results

Telstra delivered 1H22 results showing continued growth in our underlying business. On a reported basis, total income for the half decreased 9.4 per cent to \$10.9 billion. Reported EBITDA was \$3.5 billion, down 14.8 per cent. NPAT decreased by 34 per cent to \$0.7 billion, and earnings per share was down 35.9 per cent to 5.9 cents. Underlying EBITDA increased 5.1 per cent to \$3.5 billion, demonstrating the positive momentum in our core business, with mobiles performance reinforcing our clear leadership in networks and 5G. Underlying EPS¹ was up 55 per cent to 6.2 cents, this growth represents a strong start against Telstra's T25 ambition for underlying EPS target of high teens CAGR from FY21 to FY25.

Our continued mobile network leadership was underpinned by our multi-brand strategy where we again delivered mobile SIO growth, adding 84,000 net retail post-paid mobile services including 62,000 branded with a strong contribution from Enterprise. Our branded performance reinforces the benefits of our clear leadership in 5G. We continue to extend our 5G leadership with our 5G network now more than twice the size of our next nearest competitor with more than 77.5 per cent of the population covered and almost 2.8 million 5G devices connected. 1H22 saw five per cent post-paid handheld ARPU growth, 6.3 per cent mobile services revenue growth and \$392 million mobile EBITDA growth.

The execution of our T22 strategy continues with more than 80 per cent of the measures used to monitor progress against now delivered or on track for delivery. We continued to make very strong progress in our productivity program, with underlying fixed costs down \$254 million and total operating expenses down \$644 million or 8 per cent. We are on track to deliver a reduction of underlying fixed costs of approximately \$430 million for the full year. We have now reduced total underlying fixed costs by around \$2.5 billion since FY16 and are on track to deliver \$2.7 billion by end FY22. We have exceeded our \$2 billion asset monetisation target, with approximately \$5 billion of assets sales including the part sale of our Towers business, with proceeds going towards strengthening our balance sheet and a share buy-back of up to \$1.35 billion. At the end of the half, more than 40 per cent of the buy-back had been completed.

The Telstra Board resolved to pay a fully franked interim dividend of 8 cents per share, comprising an interim ordinary dividend of 6 cents per share and an interim special dividend of 2 cents per share. Guidance² for full year was reaffirmed across all measures.

Other information

Consistent with information presented for internal management reporting purposes, the result of each segment is measured based

¹ Calculated as Profit After Tax after Minority Interests (PATMI) attributable to each share, excluding net one-off nbn receipts and guidance adjustments (guidance adjustments defined in footnote 2).

² This guidance excludes material one-offs, such as mergers and acquisitions, disposals, impairments, spectrum, restructuring costs and such other items as determined by the Board and management. Refer to guidance vs reported results reconciliation (page 10) which details the adjustments made for the current and comparative period to reflect performance on the basis on which we provided guidance to the market for FY22 (set out in our ASX announcement titled "Financial results for the half year ended 31 Dec 2021" lodged with the ASX on 17 Feb 2022).

on its EBITDA contribution which differs from our statutory (reported) EBITDA. Refer to Note 2.1.1 of the Half-Year Financial Report for further details.

First half performance against our FY22 Executive Variable Remuneration Plan (EVP) metrics is included on page 11. For additional details on EVP metrics and targets, refer to pages 69-71 of our 2021 Annual Report available at <https://www.telstra.com.au/aboutus/investors/financial-information/reports>

Commentary reflects statutory (reported) and management reporting.

Results on a guidance basis ¹	1H22	FY22 Guidance
Total income	\$10.9b	\$21.6b to \$23.6b
Underlying EBITDA	\$3.5b	\$7.0b to \$7.3b
Capex	\$1.4b	\$2.8b to \$3.0b
Free cash flow after payments for lease liabilities	\$1.7b	\$3.5b to \$3.9b

Guidance versus reported results ¹	1H22	1H22	1H22	1H21
	Reported results \$m	Adjustments \$m	Guidance basis \$m	Guidance basis \$m
Total income	10,887	(21)	10,866	11,808
Underlying EBITDA	3,466	29	3,495	3,324
Free cash flow	1,324	351	1,675	1,843

1. This schedule details adjustments made to the reported results for the current and comparative periods to reflect the performance of the business on the basis on which we provided guidance to the market, which excludes material one-offs, such as mergers and acquisitions, disposals, impairments, spectrum, restructuring costs and such other items as determined by the Board and management. Underlying EBITDA excludes net one-off nbn DA receipts less nbn net C2C and guidance adjustments. 1H21 underlying EBITDA also includes depreciation of mobile lease right-of-use assets. Capex is measured on an accrued basis and excludes spectrum and guidance adjustments, externally funded capex, and capitalised leases. Free cash flow after lease payments (FCFaL) is defined as 'operating cash flows' less 'investing cash flows' less 'payments for lease liabilities', and excludes spectrum and guidance adjustments. Refer to the *Guidance versus reported results* schedule. The adjustments within the tables in this schedule have been reviewed by our auditors.

We updated our Capital Management Framework at the September 2021 Investor Day.

Principle 2 of our updated Capital Management Framework is to 'maximise fully-franked dividend and seek to grow over time'. The dividend is subject to no unexpected material events and board discretion having regard to financial and market conditions, business needs and maintenance of financial strength and flexibility consistent with our Capital Management Framework.

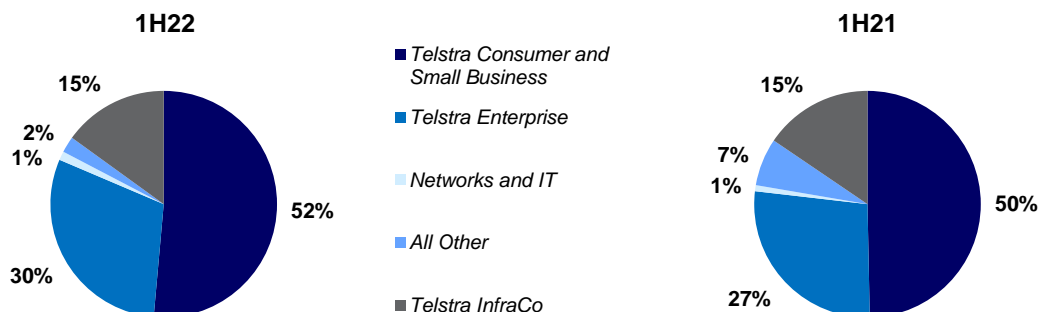

On 17 February 2022, the Directors of Telstra Corporation Limited resolved to pay a fully franked interim dividend of 8 cents per share, comprising an interim ordinary dividend of 6 cents and an interim special dividend of 2 cents. Shares will trade excluding entitlement to the interim dividend from 2 March 2022 with payment to be made on 1 April 2022.

The interim dividend represents a 136 per cent payout ratio on 1H22 reported earnings per share but is well supported by our strong free cash flow.

Segment performance

We report segment information on the same basis as our internal management reporting structure as at reporting date. Segment comparatives reflect organisational changes that have occurred since the prior reporting period to present a like-for-like view.

Segment total income (including internal charges)

Total income	1H22	1H21	Change
	\$m	\$m	%
Telstra Consumer and Small Business incl one-off nbn connection	5,995	6,348	(5.6)
Telstra Enterprise	3,496	3,468	0.8
Networks and IT incl internal charges	147	111	32.4
Telstra InfraCo incl internal charges	1,752	1,981	(11.6)
All Other incl internal charges	269	869	(69.0)
Total management reported income	11,659	12,777	(8.8)
Transactions between segments	(772)	(762)	(1.3)
Total external income	10,887	12,015	(9.4)

Telstra Consumer and Small Business

Telstra Consumer and Small Business provides telecommunications, media and technology products and services to Consumer and Small Business customers in Australia using mobile and fixed network technologies. It also operates call centres, retail stores, a dealership network, digital channels, distribution systems and a loyalty program in Australia.

Income for Telstra Consumer and Small Business decreased by 5.6 per cent to \$5,995 million impacted by a 6.8 per cent decline across fixed products including a 43.9 per cent decline in on-net revenue due to nbn™ migration and a 3.4 per cent decline in mobility income largely due to lower hardware revenue caused by lower volumes and supply constraints.

Telstra Enterprise

Telstra Enterprise is responsible for providing telecommunications and technology services and solutions for government and large enterprise customers in Australia and globally. It also provides product management for advanced technology solutions, through data and connectivity and NAS products such as unified communications, cloud, industry solutions and integrated services.

Income for Telstra Enterprise increased by 0.8 per cent to \$3,496 million primarily due to 10.5 per cent growth in Enterprise Mobility. This was partly offset by a 2.1 per cent decline across fixed products including a 12.3 per cent decline in data and connectivity income as the nbn accelerates the roll out of its business fibre zones, and a 6.6 per cent decline in calling applications revenue attributable to declines in legacy ISDN and fixed line calling products.

Networks and IT

Networks and IT is responsible for the overall planning, engineering architecture, construction and maintenance of Telstra networks, technology and information technology solutions. It primarily supports the revenue generating activities of other segments.

Telstra InfraCo

Telstra InfraCo is a standalone infrastructure business unit within Telstra. It is responsible for key passive network assets including data centres, exchanges, our fibre network, our physical mobile tower assets owned by the Amplitel business, ducts and pipes. It also provides active mobile and fixed wholesale telecommunication products and services to other carriers and internet service providers.

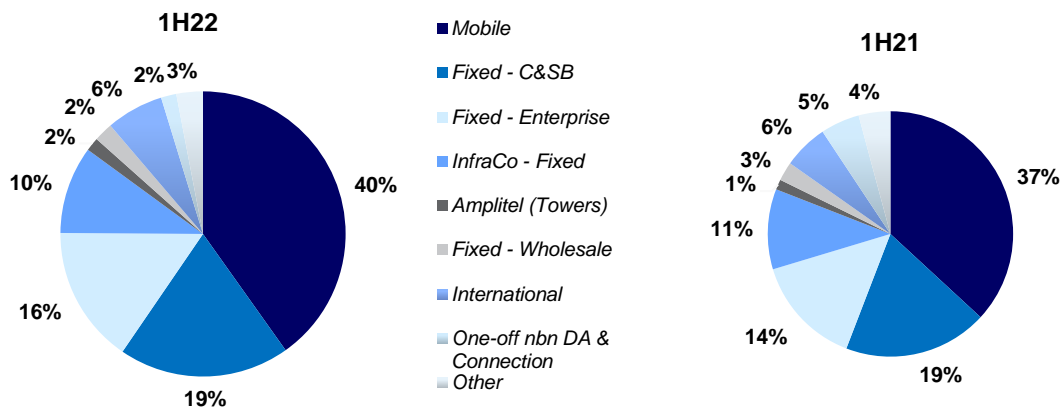

Telstra InfraCo income, including internal charges, decreased by 11.6 per cent to \$1,752 million due to expected declines from Telstra Wholesale legacy fixed products and commercial works for NBN Co as the nbn rollout nears completion. This was partly offset by an increase in wholesale mobility. Excluding commercial and recoverable works, Telstra InfraCo income decreased by 1.3%. Excluding internal charges, Telstra InfraCo income decreased by 17.6 per cent to \$1,125 million.

All Other

Certain items of income and expense relating to multiple reportable segments are recorded by our corporate areas and included in the All Other category. This category also includes Product and Technology Group, Global Business Services (GBS) and Telstra Health. Income decreased by 69.0 per cent to \$269 million, \$231 million excluding internal charges, mainly due to declines in Per Subscriber Address Amount (PSAA) receipts and ISA ownership receipts in line with the progress of the nbn network rollout.

Product performance

Product income breakdown (including internal charges)

Product income	1H22	1H21	Change
	\$m	\$m	%
Mobile	4,683	4,710	(0.6)
Fixed – C&SB	2,260	2,426	(6.8)
Fixed – Enterprise	1,814	1,852	(2.1)
Fixed – Active Wholesale	252	319	(21.0)
International	758	755	0.4
InfraCo Fixed	1,159	1,352	(14.3)
Amplitel	179	171	4.7
One-off nbn DA & connection	203	658	(69.1)
Other	351	534	(34.3)
Total management reported income	11,659	12,777	(8.8)
Eliminations	(772)	(762)	(1.3)
Total external income	10,887	12,015	(9.4)

EBITDA contribution margins ¹	1H22 %	2H21 %	1H21 %	FY21 %
Mobile	41.8	37.7	33.2	35.4
Fixed – C&SB	1.0	1.9	4.0	2.9
Fixed – Enterprise	16.5	17.8	16.8	17.3
Fixed – Active Wholesale	35.7	36.0	41.7	39.1
International	25.6	23.2	21.7	22.5
InfraCo – Fixed	66.3	66.1	64.2	65.1
Amplitel	84.9	88.6	88.9	88.8
Other	3.3	11.2	10.7	10.9
Net one-off nbn DA less nbn net cost to connect	61.6	71.9	79.0	76.4

1. The data in this table includes adjustments to historic numbers to reflect changes in product hierarchy.

On a reported basis, total external income (excluding finance income) declined by 9.4 per cent to \$10,887 million. The decline was due to a reduction in low margin hardware revenues, one-off nbn income and Fixed legacy products across all segments. Material one-offs in the prior comparative period through the sale and lease back of the Pitt St exchange also contributed to the decline. This was partly offset by growth in Mobile service revenue. On a guidance basis, total external income (excluding finance income) was \$10,866 million.

More detail on each of the products are outlined below on a reported basis unless otherwise stated, presented in accordance with our new product reporting framework which was announced to the market on 13 January 2022. The restated product reporting framework aligns with our T25 strategy and includes:

- More transparency across our infrastructure business with InfraCo Fixed and Amplitel (InfraCo Towers) on a standalone basis
- Mobile and Fixed product EBITDA margins after including internal charges.

Mobile

Mobile income declined by 0.6 per cent to \$4,683 million with higher postpaid handheld services income (+\$148 million) and growth in Prepaid, mobile broadband, internet of things and wholesale services revenue offset by lower hardware income (-\$171 million) caused by lower volumes and supply constraints.

Retail services in operation (SIO) increased by 578,000 in the half, bringing the total to 20.0 million. We now have 8.7 million postpaid handheld retail SIOs, an increase of 84,000 in the half including 22,000 from Belong.

Postpaid handheld revenue increased by 6.3 per cent to \$2,500 million with a 5.0 per cent ARPU increase from \$45.99 to \$48.29, with ARPU growth in all segments and brands. Transacting minimum monthly commitment (TMMC), our lead indicator of ARPU, improved \$2 in 1H22 compared with 1H21 illustrating continued momentum in market.

Prepaid handheld revenue increased by 6.9 per cent to \$432 million as unique users increased by 116,000 over the past 12 months (67,000 increase in the half). ARPU increased from \$20.89 to 22.70, a gain of 8.7 per cent.

Mobile broadband revenue increased by 0.9 per cent to \$319 million as an increase in ARPU more than offset a slight reduction in SIOs with a reduction of 28,000 seen over the past 12 months (10,000 increase in the half).

Internet of Things (IoT) and Other revenue increased by 8.7 per cent to \$138 million with SIOs increasing by 452,000 in the half. Growth was predominantly driven by carriage, while managed services SIOs also grew.

Wholesale revenue increased 16.5 per cent to \$148 million. Wholesale SIOs increased by 91,000 in the half bringing the total to 1.8 million. Wholesale revenue growth was also supported by ARPU growth in prepaid wholesale.

Hardware, interconnect and other revenue decreased by 17.2 per cent to \$1,146 million largely due to lower C&SB handset sales impacted by COVID-19 trading and supply constraints, partially offset by improved Enterprise hardware sales.

Mobile EBITDA contribution margin increased by 8.6 percentage points to 41.8 per cent largely due to higher service revenue, transitioning our customers off subsidy and lease plans, lower hardware volumes and productivity.

Fixed – Consumer and Small Business (C&SB)

Fixed – C&SB income declined by 6.8 per cent to \$2,260 million impacted by nbn migration along with declines in legacy voice and SIOs. C&SB bundles and standalone data SIOs declined by 50,000 in the half bringing the total to 3.6 million.

On-net fixed revenue, which is revenue from services on the Telstra network, decreased by 43.9 per cent to \$259 million while off-net fixed revenue, which is revenue from services for which we are a reseller, increased by 5.7 per cent to \$1,554 million as customers continue to migrate on to the nbn network.

Consumer content and services revenue declined by 10.5 per cent to \$306 million due to lower Foxtel from Telstra SIOs despite 79 per cent year on year growth in SVOD (subscription video on demand) seeing closing SIOs of 658,000.

Business apps and services revenue declined by 8.5 per cent to \$86 million due to legacy product decline, partly offset by growth in unified communications.

Interconnect, payphones and E000 revenue declined by 5.2 per cent to \$55 million mainly due to inbound calling services decline and the loss of payphone revenue following our decision to provide these free of charge across all of Australia.

Fixed – C&SB EBITDA contribution margin declined by 3.0 percentage points to 1.0 per cent due to high margin revenue decline and growing network payments to NBN Co, partly offset by fixed cost reduction.

Fixed – Enterprise

Fixed – Enterprise income decreased by 2.1 per cent to \$1,814 million reflecting declines in data and connectivity income, offset by gains in NAS income.

Data and connectivity income declined by 12.3 per cent to \$494 million. Fibre SIOs were flat sequentially as we successfully re-signed key customers. However, overall SIO's declined, driven by lower-value copper and legacy connections impacted by consolidation and nbn migration. ARPU compression also intensified due to competitor rollout and technology change.

NAS income increased by 2.4 per cent to \$1,320 million largely due to growth in strategic areas such as managed services, professional services, cloud applications and equipment sales, however this was partially offset by decreases in calling applications.

Calling applications revenue declined by 6.6 per cent to \$342 million due to ISDN and fixed line calling products. This was partly offset by higher call volumes due to market conditions.

Managed services and maintenance revenue increased by 8.8 per cent to \$357 million as more network customers attached cyber security services and from growth in contact centre solutions.

Professional services revenue increased by 2.2 per cent to \$185 million driven by renewed focus on large strategic contracts and digital transformation engagements by Telstra Purple.

Cloud applications revenue increased by 6.3 per cent to \$135 million from partner cloud products including AWS and Microsoft, enabling attachment to managed services.

Fixed – Enterprise EBITDA contribution margin declined by 0.3 percentage points to 16.5 per cent. Data and connectivity EBITDA contribution margin declined by 4.5 percentage points to 39.5 per cent reflecting reduced revenue. NAS EBITDA contribution margin grew by 3.1 percentage points to 8.0 per cent as decline in high margin products was more than offset by growth in strategic areas and productivity.

Fixed – Active Wholesale

Fixed – Active Wholesale income declined by 21.0 per cent to \$252 million impacted by ongoing migration to the nbn and legacy product decline.

Data and connectivity revenue decreased by 9.7 per cent to \$158 million reflecting an ongoing SIO reduction in enterprise grade legacy products, price competition in wideband fibre products and migration of legacy services.

Legacy calling and fixed revenue declined by 34.7 per cent to \$94 million due to continued legacy fixed product SIO decline as customers migrate to nbn solutions.

Fixed – Active Wholesale EBITDA contribution margin decreased by 6.0 percentage points to 35.7 per cent as declines in revenue were partially offset by productivity.

International

Income from our International business increased by 0.4 per cent (0.6 per cent in constant currency (CC) terms) due to strong performance in wholesale from new sales and infrastructure investment, offset by declines in Enterprise due to COVID impacts.

Fixed legacy voice revenue increased by 4.5 per cent (CC).

Data and connectivity revenue was flat (CC) with wholesale growth offsetting enterprise decline.

NAS and other revenue increased by 0.1 per cent (CC) but grew 5.2 per cent excluding the exit of TelkomTelstra, with growth in managed network and equipment and also professional services revenues.

International EBITDA contribution margin increased by 3.9 percentage points to 25.6 per cent with margin expansion from higher Data & connectivity and NAS contribution as well as operational efficiency.

InfraCo Fixed

InfraCo Fixed income declined by 14.3 per cent to \$1,159 million largely due to the roll off of nbn commercial works as the nbn network rollout nears completion. InfraCo Fixed derives income from operation of fixed passive network infrastructure including our fibre network, ducts and fixed network sites. Growth in fibre and ducts revenue was offset by declines in nbn commercial works, while our fixed network sites also saw forecast declines in revenue. Excluding commercial and recoverable works, InfraCo Fixed Income grew 1.5 per cent.

Commercial and recoverable works revenue declined by 57.8 per cent to \$152 million.

Recurring nbn DA income includes infrastructure services across ducts, racks and backhaul provided to NBN Co. Income increased by 2.2 per cent to \$459 million partly reflecting CPI price increases.

InfraCo Fixed EBITDA contribution margin increased by 2.1 percentage points to 66.3 per cent. EBITDA contribution however declined \$100 million largely due to the decline in commercial and recoverable works.

Amplitel (Towers)

Amplitel saw income growth of 4.7 per cent to \$179 million, including internal charges, from continued demand including new builds and 5G coverage expansion from Telstra. We completed our 49 per cent Towers sale, valuing the business at \$5.9 billion, in September 2021.

One-off nbn DA & connection

One-off nbn DA & connection income includes receipts from NBN Co for disconnecting customers from our legacy network, and one-off income we receive from customers to connect to the nbn network. Income decreased by 69.1 per cent to \$203 million as migration to the nbn nears completion.

Other

Other product income includes Telstra Health and corporate adjustments. Corporate adjustments include items not related to products such as impact of bond rate movements on leave provisions. Income decreased by \$183 million to \$351 million, including internal charges, mainly due to a gain on sale of the Pitt Street exchange property and other M&A transactions in 1H21.

Elimination

Elimination represents internal revenue with \$477 million in InfraCo Fixed, \$150 million in Amplitel and \$145 million in Other.

Expense performance

Total reported operating expenses declined by 6.7 per cent to \$7,412 million. On a reported lease adjusted basis total operating expenses declined by 8.0 per cent to \$7,412 million largely due to a \$665 million reduction in Underlying costs. Operating expenses on an underlying basis declined by 8.5 per cent.

Sales costs, which are direct costs associated with revenue and customer growth, decreased by 0.8 per cent to \$4,100 million due to a \$108 million decline in other sales costs as a result of lower hardware costs, partly offset by a \$74 million increase in nbn access payments.

Underlying fixed costs declined 8.9 per cent or \$254 million enabled by our ongoing drive to digitise and simplify our processes, as well as our move to an agile workforce. The continued migration of our fixed customers to the nbn network as well as our focus on rationalising 3rd party vendors and services have also contributed to cost reduction. Other fixed costs decreased by 44.9 per cent from lower mobile lease and commercial works costs, while one-off nbn DA and nbn cost to connect declined by 43.5 per cent in line with the progress of the nbn network rollout.

In June 2018, we announced we would target a \$2.5 billion annual reduction in underlying fixed costs by FY22 compared with restated underlying fixed costs of ~\$7.9 billion in base year FY16. We subsequently increased our FY22 target by \$200 million to \$2.7 billion. We have now achieved approximately \$2.5 billion of annual cost out since FY16.

Operating expenses	1H22	1H21	Change	
	\$m	\$m	\$m	%
Sales costs	4,100	4,134	(34)	(0.8)
- nbn payments	1,034	960	74	7.7
- other	3,066	3,174	(108)	(3.4)
Fixed costs	3,059	3,690	(631)	(17.1)
- underlying	2,597	2,851	(254)	(8.9)
- other ¹	462	839	(377)	(44.9)
Underlying	7,159	7,824	(665)	(8.5)
One-off nbn DA and nbn cost to connect	78	138	(60)	(43.5)
Restructuring	22	60	(38)	(63.3)
Other guidance adjustments ²	153	34	119	n/m
Reported lease adjusted³	7,412	8,056	(644)	(8.0)
Lease adjustments ⁴	0	(113)	113	n/m
Reported	7,412	7,943	(531)	(6.7)

1. Fixed costs - other includes items supporting revenue growth including relevant NAS costs, mobile handset lease, and product impairment, and additional costs from insourcing retail channel from FY22.

2. Other guidance adjustments include M&A transactions. M&A adjustments relate to acquisition and disposals of controlled entities, joint ventures, associates and other investments and any associated net gains or losses and contingent consideration.

3. 'Reported lease adjusted' includes all mobile handset leases as operating expenses, and all rent/other leases below EBITDA. There were no mobile handset leases or other leases below EBITDA in FY22.

4. Refer to note 7 of the *Guidance versus reported results* schedule.

Our progress on achieving our productivity target is reported through the above operating expenses table. The detail below provides commentary on the operating expenses as disclosed in our statutory accounts.

Operating expenses on a reported basis	1H22	1H21	Change
	\$m	\$m	%
Labour	1,834	2,033	(9.8%)
Goods and services purchased	4,148	4,208	(1.4%)
Net impairment losses on financial assets	41	78	(47.4%)
Other expenses	1,389	1,624	(14.5%)
Total	7,412	7,943	(6.7%)

Labour

Total labour expenses decreased by 9.8 per cent or \$199 million to \$1,834 million. Salary and associated costs decreased by \$102 million due to workforce optimisation and process simplification as Telstra moves to Agile, as well as continued decline in legacy services post NBN migration, leading to lower field services support. Labour substitution costs declined by \$49 million from a reduction in labour outsourcing.

Total FTE decreased by 6.7 per cent or 1,909 to 26,728 largely due to our productivity program. FTE decreased by 1.1 per cent or 287 in the six months to December 2021.

Goods and services purchased

Total goods and services purchased decreased by 1.4 per cent or \$60 million to \$4,148 million.

Cost of goods sold, which includes mobile handsets and accessories, tablets and modems decreased by 8.2 per cent or \$118 million to \$1,322 million mainly due to lower C&SB mobile hardware volumes.

Network payments increased by 2.2 per cent or \$35 million to \$1,617 million. This included a \$74 million increase in nbn network payments driven by nbn SIO growth, movement towards higher tiered nbn plans and Connectivity Virtual Circuit (CVC) charges due to increased user data consumption.

Other goods and services purchased increased by 1.9 per cent or \$23 million to \$1,209 million as a result of higher managed costs through increased revenue from Managed Services and Cloud Applications which led to increased cost of sales. This was offset by decreased service fees through lower Foxtel from Telstra volumes.

Other expenses

Total other expenses decreased by 14.5 per cent or \$235 million to \$1,389 million primarily due to a reduction related to termination of swap handset leases and associated termination fees payable.

Service contracts and other agreements expenses declined by 5.0 per cent or \$29 million to \$553 million due to productivity and cost reduction programs. Impairment losses (excluding net losses on financial assets) decreased by 37.0 per cent or \$40 million to \$68 million largely due to a \$34 million impairment loss for our Sensis investment classified as held for sale in the prior corresponding period. Other expenses decreased by 17.8 per cent or \$166 million to \$768 million primarily due to termination charges for our mobile handset leases.

Depreciation and amortisation

Depreciation and amortisation decreased by 9.9 per cent or \$240 million to \$2,189 million due to transformation network and IT applications fully depreciating in the prior corresponding period. The reduction included a \$133 million decrease in amortisation of intangible assets, an \$86 million decrease in depreciation of right-of-use assets, and a \$19 million decrease in amortisation and \$4 million increase in depreciation expense from the assessment of useful lives.

Net finance costs

Net finance costs decreased by 22.5 per cent or \$69 million to \$238 million. This decrease was primarily due to a reduction in interest on borrowings of \$30 million and financing items relating to contracts with customers (refer note 4.4.3 in the financial report for further details). Interest on borrowings decreased as a result of a reduction in our average gross borrowing cost from 3.8 per cent to 3.7 per cent and lower debt on issue.

Financial position

Summary statement of cash flows	1H22	1H21	Change
	\$m	\$m	%
Net cash provided by operating activities	3,246	3,443	(5.7)
Net cash used in investing activities	(1,922)	(777)	n/m
- Capital expenditure (before investments)	(1,626)	(1,597)	1.8
- Other investing cash flows	(296)	820	n/m
Free cash flow	1,324	2,666	(50.3)
Net cash used in financing activities	(815)	(1,836)	(55.6)
Net increase/(decrease) in cash and cash equivalents	509	830	(38.7)
Cash and cash equivalents at the beginning of the period	1,125	499	n/m
Effects of exchange rate changes on cash and cash equivalents	14	(34)	n/m
Cash and cash equivalents at the end of the period	1,648	1,295	27.3

Capital expenditure and cash flow

Free cash flow generated from operating and investing activities was \$1,324 million representing a decrease of \$1,342 million or 50.3 per cent. It was negatively impacted by M&A/asset sales outflows and declines in EBITDA. Reported EBITDA declined by \$604 million including a \$395 million decline in net one-off nbn DA receipts and gains on sale of the Pitt St exchange in the prior corresponding period. Also impacting free cash flow was \$428 million spent on the health acquisitions of MedicalDirector and PowerHealth, and \$183m on insourcing retail stores.

Net cash provided by operating activities decreased by 5.7 per cent or \$197 million to \$3,246 million mainly due to a \$1,193 million decline in receipts from customers, partly offset by a \$955 million reduction in payments to suppliers and employees.

Net cash used in investing activities increased by 147.4 per cent or \$1,145 million to \$1,922 million primarily due to a \$593 million increase in payments for shares in controlled entities including our health acquisitions and insourcing of retail stores, a \$286 million decrease in proceeds from sale and leaseback and a \$138 million decreases in proceeds from sale of businesses.

Net cash used in financing activities decreased by 55.6 per cent or \$1,021 million to \$815 million. This was largely due to \$2,883 million in proceeds received from InfraCo Towers' (now Amplitel) 49 per cent sale. This was partly offset by a \$1,029 million decrease in proceeds from borrowings, \$428 million increase in repayment of borrowings and \$571 million spent to 31 December 2021 on our share buy-back.

Our accrued capital expenditure for the year on a guidance basis, was \$1,386 million or 13.4 per cent of sales revenue. Guidance figures are adjusted from reported results for the current and comparative periods to reflect the performance of the business on the basis on which we provided guidance to the market.

Proceeds from borrowings	\$m	Debt repayments	\$m
Bilateral loan facilities	302	USD bond	(955)
Other loans	7	Bilateral loan facility	(600)
		Other loans	(71)
		Short term commercial paper (net)	(258)
Total	309	Total	(1,884)

Debt position

Our gross debt was \$14,855 million comprising borrowings of \$12,132 million, lease liabilities of \$3,495 million less \$772 million in net derivative assets. Gross debt decreased by 9.4 per cent or \$1,533 million primarily from debt repayments of \$1,884 million which was partially offset by some drawings on bank facilities and other loans of \$309 million. Movement in lease liabilities, non-cash valuation impacts and bank overdraft resulted in a net increase to debt of \$42 million. Net debt decreased by 13.5 per cent or \$2,059 million to \$13,204 million reflecting an increase in cash holdings of \$526 million and the decrease in gross debt.

Financial settings	1H22 Actual	FY22 Comfort zone
Debt servicing ¹	1.9x	1.5x to 2.0x
Gearing ²	43.1%	50% to 70%
Interest cover ³	13.0x	>7x

1. Debt servicing ratio is calculated as net debt/EBITDA.

2. Gearing ratio is calculated as net debt/total net debt plus equity.

3. Interest cover is calculated as EBITDA/net interest on debt (excluding capitalised interest and non-cash accounting impacts within net finance costs).

We remain within our comfort zones for our credit metrics. Our debt servicing is 1.9 times (30 June 2021: 2.0 times), gearing ratio is at 43.1 per cent (30 June 2021: 50.0 per cent) and interest cover is 13.0 times (30 June 2021: 13.2 times).

Summary statement of financial position	31 Dec 2021	30 Jun 2021	Change
	\$m	\$m	%
Current assets	7,346	7,114	3.3
Non-current assets	35,507	35,411	0.3
Total assets	42,853	42,525	0.8
Current liabilities	10,659	10,424	2.3
Non-current liabilities	14,735	16,826	(12.4)
Total liabilities	25,394	27,250	(6.8)
Net assets	17,459	15,275	14.3
Total equity	17,459	15,275	14.3
Return on average assets (%)	6.2	7.0	(0.7pp)
Return on average equity (%)	9.1	12.8	(3.5pp)

Statement of financial position

Our balance sheet remains in a strong position with net assets of \$17,459 million.

Current assets increased by 3.3 per cent to \$7,346 million. Cash and cash equivalents increased by \$526 million supported by proceeds from partial sale of our Towers business. This was partly offset by a \$368 million decline in trade and other receivables and contract assets due to better collections and credit controls, product constructs and lower revenue.

Non-current assets declined by 0.3 per cent to \$35,507 million. Intangible assets increased by \$700 million due to acquisitions of

controlled entities. This was offset by derivative financial assets decreasing by \$343 million due to instruments maturing, property, plant and equipment which declined by \$127 million due to depreciation expenses exceeding additions, and trade and other receivables and contract assets decreased by \$262 million consistent with current trade and other receivables.

Current liabilities increased by 2.3 per cent to \$10,659 million. Borrowings increased \$498 million as maturities become due in the next 12 months offset by debt repayments. These increases were offset by trade and other payables declining by \$311 million mainly due to lower expenses while current tax payables decreased by \$99 million due to a decrease in taxable profit.

Non-current liabilities declined by 12.4 per cent to \$14,735 million. The reduction was primarily due to borrowings decreasing by \$2,502 million largely from reclassification to current liabilities of debt maturing within the next 12 months. This was partly offset by a \$215 million increase in other payables, with \$169 million for spectrum, and a \$93 million increase in deferred tax liabilities due to the tax effect of timing differences between accounting and tax.

Guidance versus reported results

This schedule details adjustments made to the reported results for the current and comparative periods to reflect the performance of the business on the basis on which we provided guidance to the market, which excludes material one-offs, such as mergers and acquisitions, disposals, impairments, spectrum, restructuring costs and such other items as determined by the Board and management. Underlying EBITDA excludes net one-off nbn DA receipts less nbn net C2C and guidance adjustments. FY21 underlying EBITDA also includes depreciation of mobile lease right-of-use assets. Free cashflow after lease payments (FCFaL) defined as 'operating cash flows' less 'investing cash flows' less 'payments for lease liabilities', and excludes spectrum and guidance adjustments.

The following adjustments provide a detailed reconciliation from reported to guidance results for each guidance measure:

	Total Income			Underlying EBITDA			Free Cashflow	
	1H21	1H22		1H21	1H22		1H21	1H22
	\$m	\$m		\$m	\$m		\$m	\$m

Lease ⁷	n/a	n/a	Lease ⁷	(113)	0	Lease ⁷	(446)	(336)
Guidance Total Income	11,808	10,866	Guidance Underlying EBITDA	3,324	3,495	Guidance Free Cashflow	1,843	1,675

The adjustments set out in the above tables have been reviewed by our auditor for consistency with the guidance basis as set out on this page.

Note:

1 Adjustments relating to acquisition and disposals of controlled entities, joint ventures, associates and other investments and any associated net gains or losses and contingent consideration. During 1H22 we disposed of a 49% non controlling stake in our towers business and acquired:

- Power Solutions Holdings Pty Ltd and its subsidiaries (PowerHealth)
- Clinical Technology Holdings Pty Ltd and its subsidiaries (MedicalDirector) and
- Fone Zone Pty Ltd (Fone Zone) and its controlled entities and multiple individually immaterial retail stores from various licensees.

Consistent with the guidance we provided to the market we are not adjusting Income, EBITDA or Free Cashflow for the trading results of these stores.

1H21 includes the disposal of our e-commerce platform business, our FTTP Velocity business and the acquisition of Epicon IT Solutions Pty Ltd (including its wholly owned subsidiary, Service Potential Pty Ltd) and Epicon Software Pty Ltd.

2 Adjustment related to impairment loss for our Sensis investment that was classified as held for sale at 31 December 2020.

3 Adjustment relating to the sale and leaseback transaction of the Pitt Street exchange property in FY21.

4 Adjustments for the strategic focus (T22 program) to improve customer experience, establish a standalone infrastructure business, simplify structure and cut costs, in addition to our normal business as usual redundancies for the period.

5 Adjustments for net one-off nbn receipts which is defined as net nbn one off Definitive Agreement receipts (consisting of PSAA, Infrastructure Ownership and Retraining) less nbn net cost to connect.

6 Adjustment relating to the impact on free cashflow associated with our spectrum purchases and renewals for the period including:

- \$28m for renewal of our national spectrum licence in the 900 MHz band
- ~\$5m payments for spectrum and apparatus licences in various spectrum bands

7 Adjustment to EBITDA for depreciation of mobile lease right-of-use assets in FY21.

Adjustment to Free Cashflow for payment of lease liabilities.

n/a Adjustment is not relevant to the respective guidance measure.

Executive Variable Remuneration Plan (EVP) Metric Additional Detail

* Market Guidance means guidance for FY22 as set out in Telstra's ASX announcement dated 12 August 2021.

**For the financial metrics only, the 1H22 actuals are calculated on a guidance basis.

Financial report

for the half-year ended 31 December 2021

About this report

This is the half-year financial report for Telstra Corporation Limited (referred to as the Company or Telstra Entity) and its controlled entities (together referred to as we, us, Telstra, the Telstra Group or the Group).

Telstra Corporation Limited is a 'for profit' company limited by shares and incorporated in Australia, whose shares are publicly traded on the Australian Securities Exchange (ASX).

Our half-year financial report does not include all of the information required for the annual financial report. It should be read in conjunction with our 2021 Annual Report and together with any public announcements made by us in accordance with the continuous disclosure obligations arising under the ASX listing rules and the *Corporations Act 2001*, up to the date of the Directors' Declaration.

Reading the financials

Section introduction

Introduction at the start of each section outlines the focus of the section and explains the purpose and content of that section.

Note and topic summary

A summary at the start of certain notes explains the objectives and content of that note, or at the start of certain specific topics clarifies complex concepts, which users may not be familiar with.

Narrative table

Some narrative disclosures are presented in a tabular format to provide readers with a clearer understanding of the information being presented.

Information panel

The information panel describes our key accounting estimates and judgements applied in the preparation of the financial report, which are relevant to that section or note.

The notes following the financial statements form part of the half-year financial report.

Section 1. Basis of preparation

This section explains the basis of preparation of our half-year financial report and provides an update on some of our key accounting estimates and judgements to reflect the latest information available.

1.1 Basis of preparation of the half-year financial report

Our half-year financial report is a condensed general purpose financial report, prepared by a 'for-profit' entity in accordance with the *Corporations Act 2001* and AASB 134: 'Interim Financial Reporting' issued by the Australian Accounting Standards Board (AASB).

The financial report is presented in Australian dollars and, unless otherwise stated, all values have been rounded to the nearest million dollars (\$m) under the option available to us under the Australian Securities and Investments Commission (ASIC) Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191.

The financial report is prepared in accordance with historical cost, except for some categories of financial instruments which are recorded at fair value.

The same accounting policies, including the principles of consolidation, have been applied by each entity in the consolidated group and are consistent with those adopted and disclosed in our 2021 Annual Report.

For the purpose of preparing this report, each half-year has been treated as a discrete reporting period.

1.2 Terminology used in our income statement

EBITDA reflects earnings before interest, income tax, depreciation and amortisation. EBIT is a similar measure to EBITDA, but takes into account depreciation and amortisation.

We believe EBITDA is useful as a widely recognised measure of operating performance.

1.3 Key accounting estimates and judgements

Preparing the financial report requires management to make estimates and judgements. In preparing this report, the key sources of estimation uncertainty were consistent with those applied in the 2021 Annual Report with the exception of those arising from new arrangements executed in the current reporting period.

1.3.1 COVID-19 pandemic

Financial impacts of the COVID-19 pandemic have been reflected in our financial performance for the half-year ended 31 December 2021 and considered in our financial position as at 31 December 2021. We have not identified any impacts other than those disclosed in note 1.4 to the financial statements in our 2021 Annual Report.

1.3.2 Summary of key management judgements

The key judgements and estimates used by management in applying the Group's accounting policies for the half-year ended 31 December 2021 have been updated to reflect the latest information available. They can be located in the following notes:

Key accounting estimates and judgements	Note	Page
Impact of nbn Infrastructure Services Agreement (ISA) on revenue from customer contracts and other income	2.2	18
Determining CGUs and their recoverable amount for impairment assessment of goodwill	3.1	19
Impairment assessment of our ubiquitous telecommunications network	3.1	20
Useful lives and residual values of tangible and intangible assets	3.1	21
Determining lease term	3.2	22
Estimating expected credit losses	3.3	23
Determining non-controlling interests in Power Health	5.1	31

1.4 Other accounting policies

1.4.1 Changes in accounting policies

A number of new or amended accounting standards became effective in the current reporting period but none of those had a material impact on our accounting policies.

AASB 2020-8 'Amendments to Australian Accounting Standards - Interest Rate Benchmark Reform - Phase 2' was issued in September 2020 and became effective for Telstra from 1 July 2021. These amendments provide a practical expedient when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, to allow the effective interest rate to be adjusted, and also provide certain relief from discontinuing hedge relationships as a result of the reform. At 31 December 2021 we had some floating rate derivative instruments hedging term debt issuances and bank facilities which have a reference to either BBSW, BBSY or EURIBOR. Unlike LIBOR, no decisions have been made for the replacement of these benchmark rates which continue to remain in place. We also have some short term commercial paper issuance which is linked to the 3M USLIBOR benchmark which will remain in place until 30 June 2023. We continue to monitor the developments of international regulations to ensure preparedness for any changes relating to Interest Rate Benchmark Reform. None of these amendments impacted Telstra's financial results for the half-year ended 31 December 2021.

1.4.2 New accounting standards to be applied in future reporting periods

We have not early adopted any standard, interpretation or amendment that has been issued but is not yet effective and we do not expect any of them to have a material impact on our financial results upon adoption.

Section 2. Our performance

This section explains the results and performance of our segments, which are reported on the same basis as our internal management reporting structure. It also includes disaggregated revenue by segment.

2.1 Segment information

Segment information is based on the information that management uses to make decisions about operating matters and allows users to review operations through the eyes of management.

Our operating segments represent the functions which offer our main products and services in the market, however, only some of our operating segments meet the disclosure criteria for reportable segments.

2.1.1 Operating segments

We report segment information on the same basis as our internal management reporting structure at the reporting date. Segment comparatives reflect any organisational changes that have occurred since the prior reporting period to present a like-for-like view.

During the half-year ended 31 December 2021, there were no changes to our operating segments despite the legal transfer of our towers business to a separate entity (refer to note 5.1.2 for further details about the transfer of Amplitel towers business). This is because the internal restructure did not change business functions' accountabilities, the way we assess performance or allocate resources, and therefore did not change our internal management reporting structure.

There were no other organisational changes to our operating segments, however we have changed the way we measure our segment results as detailed in the sections following the table describing our segments.

In our segment results, the 'All Other' category includes functions that do not qualify as operating segments as well as the operating segments which are not material for reporting individually.

We have four reportable segments as follows:

Segment	Operation
Telstra Consumer and Small Business (TC&SB)	<ul style="list-style-type: none"> provides telecommunications, media and technology products and services to Consumer and Small Business customers in Australia using mobile and fixed network technologies operates call centres, retail stores, a dealership network, digital channels, distribution systems and a loyalty program in Australia
Telstra Enterprise (TE)	<ul style="list-style-type: none"> provides telecommunication services, advanced technology solutions, network capacity and management, unified communications, cloud, industry solutions, integrated and monitoring services to government and large enterprise customers in Australia and globally manages Telstra's networks outside Australia in conjunction with Networks and IT and Telstra InfraCo segments
Networks and IT (N&IT)	<ul style="list-style-type: none"> supports the other segments and their respective revenue generating activities by maintaining high level of reliability and security of our network platforms and data builds and manages our digital platforms underpinning our customer digital experience builds and manages software for all internal functions operates and maintains the copper network assets and provides information technology services to Telstra InfraCo segment
Telstra InfraCo	<ul style="list-style-type: none"> provides telecommunication products and services delivered over Telstra networks to other carriers, carriage service providers and internet service providers provides other Telstra functions and wholesale customers with access to network infrastructure within Telstra InfraCo's asset accountabilities operates the fixed passive network infrastructure including data centres, exchanges, poles, ducts, pits and pipes and fibre network designs and constructs fibre, exchanges and other infrastructure provides nbn co with long-term access to certain components of our infrastructure and certain network services under the Infrastructure Services Agreement and commercial contracts, respectively operates the passive and physical mobile tower assets owned by Amplitel business

Section 2. Our performance (continued)

2.1 Segment information (continued)

2.1.1 Operating segments (continued)

Consistent with information presented for internal management reporting, the result of each segment is measured based on its EBITDA contribution, which differs from our reported EBITDA.

From 1 July 2021, we have changed the way we measure results of individual segments. The table below details how we determine segment income and EBITDA contribution of each segment.

Nature of transaction	Description	Measurement basis	Impact on segment results
Transactions with external parties	<p>Any transactions between any of the Telstra Group entities with:</p> <ul style="list-style-type: none"> an external counterparty, e.g. supplier or customer any related party which is not controlled by the Telstra Group, i.e. it is not eliminated on consolidation. 	<p>Accounted for in accordance with the Australian Accounting Standards.</p> <p>We no longer adjust EBITDA contribution for the depreciation expense related to the right-of-use assets for mobile handsets arising from leases which we subleased to our TC&SB customers because any remaining leases are immaterial.</p>	The effects of all transactions with external parties are included in the segment results.
Transactions with other segments	<p>Any transactions between segments arising from:</p> <ul style="list-style-type: none"> inter-company legal agreements between entities controlled by the Telstra Group internal arrangements for notional charges not governed by legal agreements. <p>The notional internal charges are determined based on a variety of internally and externally observable inputs to reflect an arm's length basis.</p> <p>In the comparative period, the transactions related to the performance of our infrastructure assets were arising from the notional internal arrangements, and only Telstra InfraCo segment had reported those transactions in their segment results (i.e. the counterparty segments to those arrangements did not report the effects of those transactions). To provide a like-for-like view, we have restated the comparative period to reflect notional internal charges in all relevant segments.</p>	<p>Different measurement bases apply to our transactions between segments depending on their nature:</p> <ul style="list-style-type: none"> transactions related to the performance of our infrastructure assets, i.e. InfraCo Fixed and Amplitel, are measured based on a 'management view', i.e. all charges earned/incurred are recognised as either income or expenses. Such recognition may differ from the requirements of the Australian Accounting Standards in a number of areas, for example lease accounting. any transactions other than those described above are accounted for in accordance with the Australian Accounting Standards. <p>Transactions within the same segment are eliminated within that segment's results.</p> <p>Any transactions with other segments are eliminated on consolidation, therefore the total Telstra Group reported income and total reported EBITDA reconcile to the statutory financial statements.</p>	The effects of the transactions with other segments are included in the segment results and - depending on the nature of the transaction - either measured based on the management view or as accounted under the Australian Accounting Standards.
Some transactions which are managed centrally or by one segment	Certain items and transactions are managed centrally or by one of the segments even if they relate to results of multiple segments.	Accounted for in accordance with the Australian Accounting Standards.	The effects of these transactions are included in the segment results as detailed in the table on the following page.

Section 2. Our performance (continued)

2.1 Segment information (continued)

2.1.1 Operating segments (continued)

The table below provides further details how some transactions are allocated and managed and, as a result, how they are reflected in our segment results.

Nature of transaction	TC&SB	TE	N&IT	All Other	Telstra InfraCo
Inter-company transactions for international connectivity disclosed as revenue from external customers and external expenses	EBITDA contribution includes inter-segment expenses recharged by TE	EBITDA contribution includes inter-segment revenue (earned from TC&SB and Telstra InfraCo) and expenses (recharged by Telstra InfraCo)	n/a	Elimination of inter-company transactions	EBITDA contribution includes inter-segment revenue (earned from TE) and expenses (recharged by TE)
Income from nbn disconnection fees and associated expenses	EBITDA contribution does not include these transactions		n/a	EBITDA contribution includes these transactions	EBITDA contribution does not include these transactions
Network service delivery expenses other than those supporting passive infrastructure	EBITDA contribution does not include the network service delivery expense for TC&SB and TE customers		EBITDA contribution includes network service delivery expenses related to TC&SB, TE and Telstra InfraCo customers		EBITDA contribution does not include the network service delivery expense for Telstra InfraCo customers
Domestic redundancy and restructuring expenses for all segments	EBITDA contribution does not include those expenses			EBITDA contribution includes those expenses for the Telstra Entity	EBITDA contribution does not include those expenses

Section 2. Our performance (continued)

2.1 Segment information (continued)

2.1.2 Segment results

Table A details our segment results and a reconciliation of EBITDA contribution to the Telstra Group's EBITDA, EBIT and profit before income tax expense.

The effects of the following inter-company transactions with other segments have been reported as external income and expenses in the respective segment EBITDA contribution:

- revenue from external customers in the TE segment includes \$106 million (2020: \$114 million) of inter-segment revenue treated as external expenses in the TC&SB and Telstra InfraCo segments, which is eliminated in the 'All Other' category
- external expenses in the TE segment also include \$2 million (2020: \$4 million) of inter-segment expenses treated as external revenue in Telstra InfraCo and eliminated in the 'All Other' category.

In the comparative period, the effects of the following transactions with other segments arising from notional internal charges have been restated to provide a like-for-like view:

- additional \$100 million internal revenue and \$616 million internal expenses have been included in the N&IT segment
- additional \$46 million internal revenue has been included in the 'All Other' category.

Other negative revenue amounts related to certain corporate level adjustments.

Section 2. Our performance (continued)

2.2 Income

Table A Telstra Group	Half-year ended 31 Dec	
	2021	2020
	\$m	\$m
Revenue from contracts with customers	10,320	10,671
Revenue from other sources	183	313
Total revenue (excluding finance income)	10,503	10,984
Other income		
Net gain on disposal of property, plant and equipment and intangibles assets	55	22
Net gain on disposal of businesses and investments	6	105
Net gain on sale and leaseback transactions	-	102
nbn disconnection fees	176	660
Government grants	119	100
Net foreign currency translation gains	-	30
Other miscellaneous income	28	12
	384	1,031
Total income (excluding finance income)	10,887	12,015
Finance income		
Finance income (excluding income from finance leases)	57	23
Finance income from finance leases (Telstra as a lessor)	4	6
	61	29
Total income	10,948	12,044

Revenue from other sources includes income from:

- our lease arrangements, including finance leases where Telstra is a dealer-lessor, operating leases and operating subleases
- customer contributions to extend, relocate or amend our network assets, where the customer does not purchase any ongoing services under the same (or linked) contract(s).

Net gain on disposal of businesses in the prior reporting period included:

- \$60 million gain on disposal of Telstra's Velocity business for total sale proceeds of \$140 million, with \$85 million received in the prior financial year and the remaining balance to be received in instalments over the next three years
- \$45 million gain on disposal of assets and liabilities of e-commerce platform for total sale proceeds of \$55 million.

Net gain on sale and leaseback transactions in the prior reporting period resulted from sale and leaseback of our exchange property and mobile handsets subleased to our enterprise customers.

nbn disconnection fees earned under the Subscriber Agreement with nbn co are recognised as other income because they do not relate to our ordinary activities. We recognise this income when we have met our contractual obligations under this agreement.

Government grants include income under the Telstra Universal Service Obligation Performance Agreement, the Federal Government's Mobile Black Spot Program and other individually immaterial government grants. There are no unfulfilled conditions or other contingencies attached to these grants.

Section 2. Our performance (continued)

2.2 Income (continued)

2.2.1 Disaggregated revenue

Table B presents the disaggregated revenue from contracts with customers based on the nature and the timing of transfer of goods and services.

We recognise revenue from contracts with customers when the control of goods or services has been transferred to the customer. Revenue from sale of services is recognised over time, whereas revenue from sale of goods is recognised at a point in time.

Other revenue from contracts with customers includes licensing revenue (recognised either at a point in time or over time) and agency revenue (recognised over time).

Revenue from other products and services includes miscellaneous income and revenue generated by Telstra Health.

'All Other' category includes eliminations of the inter-segment transactions described in the segment results below Table A in note 2.1.2. Other negative revenue amounts related to certain corporate level adjustments.

Section 2. Our performance (continued)

2.2 Income (continued)

2.2.2 Our contracts with customers

We continued to generate revenue from customer contracts described in note 2.2 to the financial statements in our 2021 Annual Report with the exception of the changes and updates detailed below.

(a) Agreements with nbn co

We deliver a number of different services to nbn co under nbn Definitive Agreements (DAs). The transaction price in those agreements includes fixed and variable components, which require significant judgement as described below.

Impact of nbn Infrastructure Services Agreement (ISA) on revenue from customer contracts and other income

Under the ISA, we receive from nbn co the following payments:

- Infrastructure Access Payment (IAP) for long-term access to ducts and pits
- Infrastructure Ownership Payment (IOP) for the progressive transfer of infrastructure assets
- payments for long-term access to other infrastructure, including dark fibre and exchange rack space.

IAP are indexed to CPI and will grow in line with the nbn™ network rollout until its completion (as defined under the DAs). Subsequently, IAP will continue being indexed to CPI for the remaining average contracted period of 26 years.

IOP are received over the duration of the nbn network rollout, CPI adjusted and linked to the progress of the nbn network rollout.

IAP and IOP are classified in the income statement as revenue and other income, respectively, and are recognised on a percentage rollout basis of the nbn network footprint.

For any given period, the IAP and IOP amounts ultimately received from nbn co may vary from the amounts recognised in the income statement depending on the progress of the nbn network rollout and the final number of our existing fixed line premises as defined and determined under the ISA. A change in the nbn network rollout progress and/or the final number of these premises could result in a material change to the amount of IAP and IOP recognised in the income statement and the associated cash flows. Some of these adjustments cannot be finalised and the related amounts cannot be settled until the completion of the rollout and are subject to interest.

The nbn network rollout progress and its completion date are controlled by nbn co and the final number of the fixed line premises may continue to change even after all the relevant assets have been transferred to nbn co. Therefore, the final price adjustments and the resulting cash flows, including interest payable where relevant, may not be known until nbn co declares that the nbn network rollout is complete in accordance with the DAs.

We have applied judgement in determining the amounts of IAP and IOP recognised for the half-year ended 31 December 2021 and did not identify material impacts resulting from reassessment of the assumptions described above. Should evidence exist in future reporting periods that changes these amounts, revenue and other income will be adjusted in the future reporting periods.

2.3 Notes to the statement of cash flows

2.3.1 Cash and cash equivalents

Telstra Group	As at 31 Dec

Bank deposits	1,203	1,034
	1,651	1,295
Bank overdraft	(3)	-
Cash and cash equivalents in the statement of cash flows	1,648	1,295

Section 3. Our core assets, lease arrangements and working capital

This section describes our core long-term tangible (owned and leased) and intangible assets underpinning the Group's performance and provides a summary of our asset impairment assessment. This section also describes our short-term assets and liabilities, i.e. our working capital supporting the operating liquidity of our business.

3.1 Property, plant and equipment and intangible assets

Our impairment assessment compares the carrying value of our cash generating units (CGUs) with their recoverable amounts determined using a 'value in use' calculation. The value in use calculations use key assumptions such as cash flow forecasts, discount rates and terminal growth rates.

Goodwill and intangible assets with indefinite useful lives are not subject to amortisation and are assessed for impairment at least on an annual basis, or whenever an indicator of impairment exists. All other non-current tangible and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable.

For impairment testing, we identify CGUs, i.e. the smallest groups of assets that generate cash inflows that are largely independent of cash inflows from other assets or groups of assets.

3.1.1 Impairment assessment

(a) Goodwill

During the half-year ended 31 December 2021, there were no changes to our CGUs with allocated goodwill.

Determining CGUs and their recoverable amount for impairment assessment of goodwill

We apply judgement to identify our CGUs and determine their recoverable amounts using a value in use calculation. These judgements include cash flow forecasts, as well as the selection of growth rates, terminal growth rates and discount rates based on experience and our expectations for the future.

Our cash flow projections are based on five-year management-approved forecasts unless a different period is justified. The forecasts use management estimates to determine income, expenses, capital expenditure and cash flows for each asset and CGU.

We have concluded that the discounted cash flows generated continue to support the carrying values of our CGUs, thus no impairment has been identified.

Section 3. Our core assets, lease arrangements and working capital (continued)

3.1 Property, plant and equipment and intangible assets (continued)

3.1.1 Impairment assessment (continued)

(b) Telstra Entity ubiquitous telecommunication network

An impairment assessment is performed at the level of our Telstra Entity ubiquitous telecommunications network CGU.

Impairment assessment of our ubiquitous telecommunications network

We have determined that assets which form part of the Telstra Entity ubiquitous telecommunications network, comprising the customer access network and the core network, are working together to generate independent cash inflows. No one item of telecommunications equipment is of any value without the other assets to which it is connected to deliver our products and services.

Indicators of impairment may include changes in our operating and economic assumptions or possible impacts from risks such as the COVID-19 pandemic and climate change. We apply judgement in determining whether certain trends with an adverse impact on our cash flows are considered impairment indicators.

The COVID-19 pandemic continues to create uncertainty in the economic environments we operate in. However, given the long-lived nature of the majority of our assets and the nature of the services we provide, we did not consider it as an impairment indicator of our ubiquitous telecommunications network.

We continue to assess the potential impacts of climate change and the transition to a lower carbon economy. Some financial impacts of meeting our medium-term environmental goals associated with both maintaining our carbon-neutral status, and with enabling 100 per cent renewable energy generation equivalent to our consumption by 2025, are incorporated in our management forecasts.

On the other hand, we are yet to identify potential long-term financial impacts of climate change and to incorporate them in our forward plans. Telstra operates significant physical assets including telephone exchanges, mobile towers, data centres and fibre network. These are located in city centres as well as urban and regional areas of Australia with many exposed to extreme weather conditions. Increased frequency and severity of extreme weather events such as bushfires, coastal inundation and flooding, cyclones, high temperatures, and flash flooding may damage and disrupt our operations and service delivery.

Based on our experience with extreme weather events, and considering the diverse location and nature of our assets as well as our continued focus on network resiliency and business continuity programs, we do not consider the potential impacts of climate change and the transition to a lower carbon economy to be an impairment indicator at this stage.

As we continue to assess climate impacts to our business we will incorporate any identified financial impacts into our impairment assessment. Should we identify material adverse effects of climate change or transition to a lower carbon economy on our cash flows, we may deem it an impairment indicator in the future.

Management forecasts require significant judgements and assumptions and are subject to risk and uncertainty that may be beyond our control. Hence, there is a possibility that changes in circumstances will materially alter projections, which may impact our assessment of impairment indicators and the recoverable amount of assets at each reporting date.

Section 3. Our core assets, lease arrangements and working capital (continued)

3.1 Property, plant and equipment and intangible assets (continued)

3.1.2 Depreciation and amortisation

Useful lives and residual values of tangible and intangible assets

We apply judgement to estimate useful lives and residual values of our assets and review them each year. If useful lives or residual values need to be modified, the depreciation and amortisation expense changes from the date of reassessment until the end of the revised useful life for both the current and future years.

This assessment includes a comparison with international trends for telecommunication companies and, in relation to communications assets, includes a determination of when the asset may be superseded technologically or made obsolete. For intangible assets, specifically business software, useful lives are adjusted to align with expected retirement dates for the relevant applications under the current corporate strategies.

The net effect of the assessment of useful lives was a \$19 million (2020: \$34 million) decrease in amortisation and \$4 million increase (2020: nil) in depreciation expense.

3.2 Lease arrangements

We continue to account for our lease arrangements as described in note 3.2 to the financial statements in our 2021 Annual Report.

3.2.1 Telstra as a lessee

(a) Determining lease term

On 31 August 2021, the assets and liabilities of our towers business were transferred to Towers Business Operating Trust (Trust). The trustee of the Trust is our subsidiary Amplitel Pty Ltd, previously known as Telstra Towerco No.1 Pty Ltd. Refer to note 5.1.2 for further details about the sale of units in the Trust.

As the towers business became operational, a number of inter-company arrangements with the Telstra Entity became effective, including long term arrangements to access tower sites, some of which are located on leased land. We have considered those inter-company arrangements as a significant event impacting our judgement when reassessing the lease term of our external leases. As a result, we have recognised a \$349 million increase in our lease liabilities with a corresponding increase in our right-of-use assets.

Section 3. Our core assets, lease arrangements and working capital (continued)

3.2 Lease arrangements (continued)

3.2.1 Telstra as a lessee (continued)

(a) Determining lease term (continued)

Determining lease term

We apply judgement to determine a lease term for leases with extension, termination or purchase options. We also consider lease modifications where we continue to use the same underlying asset for an extended term.

Our property lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions, with typical fixed term periods between three and 15 years.

Where Telstra is a lessee of communication assets dedicated to solution management or motor vehicles, i.e. the leased assets are more generic in nature and/or of lower value, generally master lease agreements are in place with a range of fixed lease terms between three and five years.

In determining the lease term, we consider all facts and circumstances that create an economic incentive to exercise an extension, termination or purchase option, including holdover periods where relevant.

In particular, we consider contractual terms under which the lease term can be extended or terminated, the price at which a purchase option (if relevant) can be exercised, potential relocation costs, asset specific factors and any relevant leasehold improvements or our wider strategy and policy decisions.

We also consider long term inter-company arrangements to access tower sites located on land leased from third parties.

Extension options are only included in the lease term if the lease is reasonably certain to be extended. Periods beyond termination options are only included in the lease term if it is reasonably certain that the lease will not be terminated.

The longer the fixed lease term, the less certain a lessee is to exercise an option to extend the lease.

The extension options for leases of office buildings have generally not been included in the lease term due to a competitive marketplace and our commercial ability to either substantially renegotiate or replace these assets instead of exercising the extension options.

None of our termination options have been considered reasonably certain to be exercised; therefore, the lease terms have not been shortened and all future cash flows have been included in the measurement of the lease liability.

The lease term assessment is reviewed if a significant event or change in circumstances occurs which affects this assessment and that is within our control as a lessee.

(b) Lease terminations and modifications

We recorded a \$1 million net gain (2020: \$173 million net loss) on termination and modification of leases which mainly includes early termination charges for our mobile handset leases (Telstra as a lessee). These termination charges have been partly recovered from customers who have terminated their back-to-back operating leases. The recoveries are included in revenue from other sources as part of the \$24 million (2020: \$111 million) income from operating subleases of right-of-use assets (Telstra as an intermediate lessor).

3.2.2 Sale and leaseback transactions

During the half-year ended 31 December 2021, we did not enter into individually significant sale and leaseback transactions. In the prior period, we recognised a \$102 million net gain from a sale and leaseback transaction for an exchange property and received \$282 million in sale proceeds.

Section 3. Our core assets, lease arrangements and working capital (continued)

3.3 Trade and other receivables and contract assets

Table A summarises trade and other receivables and contract assets. Where relevant, the amounts are presented net of impairment allowances.

Table A Telstra Group	As at	
	31 Dec 2021	30 Jun 2021
	\$m	\$m
Current		
Trade receivables from contracts with customers	3,144	3,136
Finance lease receivables	72	80
Accrued revenue	163	325
Other receivables	107	253
	3,486	3,794
Contract assets	723	783
	4,209	4,577
Non-current		
Trade receivables from contracts with customers	439	694
Finance lease receivables	133	160
Amounts owed by joint ventures and associated entities	110	79
Other receivables	52	51
	734	984
Contract assets	172	184
	906	1,168

Trade receivables from contracts with customers include receivables measured at amortised cost and at fair value. Refer to note 4.4.4 for further details on trade receivables from contracts with customers measured at fair value.

3.3.1 Impairment of trade and other receivables and contract assets

Estimating expected credit losses

We apply judgement to estimate the expected credit losses for our trade and other receivables measured at amortised cost and for contract assets.

For trade receivables and contract assets arising from our Telstra Consumer & Small Business and Telstra Enterprise Australian customers, we have implemented a scenario-based approach incorporating base, good and bad economic scenarios. The overall expected credit loss was calculated as a weighted average of the three scenarios.

Our analysis has shown that generally overall macroeconomic factors, such as unemployment rates, interest rates or gross domestic product have no strong correlation with our bad debt losses unless certain thresholds are exceeded. As at 31 December 2021, those macroeconomic factors were within the relevant thresholds. During the half-year ended 31 December 2021 we have not made any significant COVID-19-specific adjustments to our estimated expected credit losses.

Section 4. Our capital and risk management

This section provides information on our approach to capital management and our capital structure. Our total capital is defined as equity and net debt.

4.1 Capital management

Capital management is undertaken in accordance with the financial parameters regularly reviewed and approved by the Board.

We manage our capital structure with the aim to provide returns for shareholders and benefits for other stakeholders, while:

- safeguarding our ability to continue as a going concern
- maintaining an optimal capital structure and cost of capital that provides flexibility for strategic investments.

In order to maintain or adjust our capital structure, we may issue or repay debt, adjust the amount of dividend paid to shareholders or return capital to shareholders.

4.2 Dividend

This note includes the previous year final dividend paid and the current year interim dividend to be paid. Our dividend comprises both ordinary and special dividends.

As the current year interim dividend resolution was passed on 17 February 2022, no provision had been raised as at 31 December 2021.

We currently pay dividends to equity holders of Telstra Entity twice a year, an interim and a final dividend. The table below provides details about the previous year final dividend paid during the half-year.

Table A Telstra Entity	Half-year ended 31 Dec			
	2021	2020	2021	2020
	\$m	\$m	cents	cents
Dividends paid				
Previous year final dividend paid	951	951	8	8

On 17 February 2022, the Directors of Telstra Corporation Limited resolved to pay an interim dividend for the financial year 2022 of 8 cents per ordinary share, comprising an interim ordinary dividend of 6 cents and an interim special dividend of 2 cents. The interim dividend will be fully-franked at a tax rate of 30 per cent. The record date for the interim dividend will be 3 March 2022, with payment to be made on 1 April 2022. From 2 March 2022, shares will trade excluding entitlement to the dividend.

The Dividend Reinvestment Plan (DRP) will operate for the interim dividend in the financial year 2022. The election date for participation in the DRP is 4 March 2022.

As at 31 December 2021, the interim dividend for the financial year 2022 was not determined or publicly recommended by the Board. Therefore no provision for the dividend has been raised in the statement of financial position. A \$940 million provision for the interim dividend payable has been raised as at the date of the resolution.

There are no income tax consequences for the Telstra Group resulting from the resolution and payment of the interim dividend, except for \$403 million of franking debits arising from the payment of this interim dividend that will be adjusted in our franking account balance.

Our franking account balance as at 31 December 2021 was a \$41 million surplus. We believe that our current balance in the franking account, combined with the franking credits that will arise on our expected tax instalments, will be sufficient to fully frank our interim dividend for the financial year 2022.

4.3 Equity

This note provides information about our share capital and reserves presented in the statement of changes in equity.

We have established the Telstra Growthshare Trust to administer the Company's employee share schemes. The trust is consolidated as it is controlled by us. Shares held within the trust are used to satisfy future vesting of entitlements in these employee share schemes and reduce our contributed equity.

4.3.1 Share capital

The table below details components of our share capital balance.

Table A Telstra Group	As at	
	31 Dec 2021	30 Jun 2021
	\$m	\$m
Contributed equity	3,959	4,530
Shares held by employee share plans	(36)	(69)
Net services received under employee share plans	(54)	(25)
	3,869	4,436

(a) Contributed equity

During the half-year ended 31 December 2021, we conducted an on-market share buy-back of 142,176,377 ordinary shares for the total consideration of \$571 million. The buy-back was conducted in the ordinary course of trading at an average price per share of \$4.02. The shares bought back were subsequently cancelled. In addition, Telstra Growthshare Pty Ltd (the trustee of the Telstra Growthshare Trust that administers our employee share schemes) purchased on-market 1,224,568 shares for the purpose of the employee incentive schemes for a total consideration of \$5 million.

As at 31 December 2021, we had 11,751,121,478 (June 2021: 11,893,297,855) authorised fully paid ordinary shares on issue.

Section 4. Our capital and risk management (continued)

4.3 Equity (continued)

4.3.1 Share capital (continued)

(b) Share buy-back impact on earnings per share (EPS)

EPS is the amount of post-tax profit attributable to each share. It excludes profit attributable to non-controlling interest and takes into account the average number of shares weighted by the number of days on issue.

The EPS would not have been significantly different had we completed the on-market share buy-back at the beginning of this reporting period.

4.4 Net debt

As part of our capital management we monitor net debt. Net debt equals total interest-bearing financial liabilities and derivative financial instruments, less cash and cash equivalents.

This note provides information about components of our net debt and related finance costs.

Table A lists the carrying value of our net debt components (both current and non-current balances).

Table A Telstra Group	As at	
	31 Dec 2021	30 Jun 2021
	\$m	\$m
Lease liabilities	(3,495)	(3,305)
Borrowings	(12,132)	(14,136)
Net derivative financial instruments	772	1,053
Gross debt	(14,855)	(16,388)
Cash and cash equivalents	1,651	1,125
Net debt	(13,204)	(15,263)

No components of net debt are subject to any externally imposed capital requirements. We did not have any defaults or breaches under any of our agreements with our lenders during the half-year ended 31 December 2021.

Table B summarises the key movements in net debt during the period and provides our gearing ratio. Our gearing ratio equals net debt divided by total capital, where total capital equals equity, as shown in the statement of financial position, plus net debt.

Table B Telstra Group	Half-year ended 31 Dec	
	2021	2020
	\$m	\$m
Opening net debt at 1 July	(15,263)	(16,844)
Debt issuance	-	(414)
Drawings (bilateral bank loans)	(302)	(702)
Commercial paper (net)	258	183
Revolving bank facilities (net)	-	260
Other loans	(7)	(13)
Debt repayments	1,626	804
Lease liability payments	295	403
Net cash outflow	1,870	521
Fair value gain/(loss) impacting:		
Equity	144	(108)
Other expenses	(2)	26
Finance costs	-	1
Other non-cash movements		
Lease liability (Telstra as a lessee)	(485)	(460)
Other loans	9	(42)
Total non-cash movements	(334)	(583)
Total decrease/(increase) in gross debt excluding bank overdraft	1,536	(62)
Net increase in cash and cash equivalents net of bank overdraft (includes effects of foreign exchange differences)	523	796
Total decrease in net debt	2,059	734
Closing net debt at 31 December	(13,204)	(16,110)
Total equity	(17,459)	(15,185)
Total capital	(30,663)	(31,295)
	%	%
Gearing ratio	43.1%	51.5%

Section 4. Our capital and risk management (continued)

4.4 Net debt (continued)

4.4.1 Bank facilities

Table C presents our total and undrawn committed bank facilities at balance dates. As at 31 December 2021, we had total available facilities of \$2,904 million, the majority of which were held by the Telstra Entity.

Post balance date, on 10 February 2022 we entered into new syndicated loan facilities totalling \$1,500 million and on 14 February 2022 we extended an existing \$300 million bank loan facility. With this refinancing, our committed facilities mature on a staggered basis over the next three years.

Table C Telstra Group	As at	
	31 Dec 2021	30 Jun 2021
	\$m	\$m
Facilities available	2,904	2,800
Facilities used	(4)	(300)
Facilities unused	2,900	2,500

4.4.2 Borrowings

Table D details the carrying and fair values of borrowings included in the statement of financial position.

Table D Telstra Group	As at 31 Dec 2021		As at 30 Jun 2021	
	Carrying value	Fair value	Carrying value	Fair value
	\$m	\$m	\$m	\$m
Current borrowings				
Unsecured notes	3,442	3,454	2,704	2,727
Bank and other loans - unsecured	51	51	65	65
Commercial paper - unsecured	635	638	862	864
Other financial liabilities	1	20	-	-
	4,129	4,163	3,631	3,656
Non-current borrowings				
Unsecured notes	7,271	7,805	9,425	10,151
Bank and other loans - unsecured	316	318	667	686
Other financial liabilities	416	450	413	416
	8,003	8,573	10,505	11,253
Total borrowings	12,132	12,736	14,136	14,909

Unsecured notes comprise bonds and private placements.

Other financial liabilities represent amounts arising from sale and leaseback transactions accounted as financial liabilities under the accounting standards.

Our commercial paper is used principally to support working capital and short-term liquidity and continues to be supported by a combination of liquid financial assets, and access to committed bank facilities.

Section 4. Our capital and risk management (continued)

4.4 Net debt (continued)

4.4.3 Finance costs

Table E presents our net finance costs. Interest expense on borrowings are net amounts after offsetting interest income and interest expense on associated derivative instruments.

Table E Telstra Group	Half-year ended 31 Dec	
	2021	2020
	\$m	\$m
Interest income	8	6
Finance income from finance leases (Telstra as a lessor)	4	6
Finance income from contracts with customers	48	16
Net interest income on defined benefit plan	1	1
Total finance income	61	29
Interest expense on borrowings	(238)	(268)
Interest expense on lease liabilities	(41)	(43)
Gross interest on debt	(279)	(311)
Finance costs from contracts with customers	(54)	(61)
Net gains on financial instruments included in remeasurements	10	12
	(44)	(49)
Interest capitalised	24	24
Total finance costs	(299)	(336)
Net finance costs	(238)	(307)

Net gains on derivative financial instruments included in remeasurements within net finance costs comprise unrealised valuation impacts on our borrowings and derivatives. These include net unrealised gains or losses which arise from changes in the fair value of derivative financial instruments to the extent that hedge accounting is not achieved or is not effective. These fair values increase or decrease because of changes in financial indices and prices over which we have no control.

4.4.4 Fair value measurement

The financial instruments included in the statement of financial position are measured either at fair value or their carrying value approximates fair value, with the exception of borrowings, which are held at amortised cost.

To determine fair value, we use both observable and unobservable inputs. We classify the inputs used in the valuation of our financial instruments according to a three level hierarchy as shown below. The classification is based on the lowest level input that is significant to the fair value measurement as a whole.

During the half-year ended 31 December 2021, there were no changes in valuation techniques for recurring fair value measurements of our financial instruments. There were also no transfers between fair value hierarchy levels.

Section 4. Our capital and risk management (continued)

4.4 Net debt (continued)

4.4.4 Fair value measurement (continued)

The table below summaries the methods used to estimate the fair value of our financial instruments.

Level	Financial instrument	Fair value
Level 1: quoted (unadjusted) market prices in active markets for identical assets or liabilities	Listed investments in equity instruments	Quoted prices in active markets.
Level 2: the lowest level input that is significant to the fair value measurement is directly (as prices) or indirectly (derived from prices) observable	Borrowings, cross currency and interest rate swaps	Valuation techniques maximising the use of observable market data. Present value of the estimated future cash flows using appropriate market-based yield curves, which are independently derived. Yield curves are sourced from readily available market data quoted for all major currencies.
	Forward foreign exchange contracts	Quoted forward exchange rates at reporting date for contracts with similar maturity profiles.
Level 3: one or more key inputs for the instrument are not based on observable market data (unobservable inputs)	Trade receivables from contracts with customers	Trade receivables from contracts with customers measured at fair value are such where, due to the variability of the contractual cash flows, the instrument does not meet the classification requirements of financial assets at amortised cost. A valuation technique is used, where the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Expected cash flows are estimated based on the terms of the customer contract taking into account possible variations in the amount and timing of cash flows. The discount rate is determined using a risk-free rate plus a risk adjustment reflecting the credit risk associated with the cash flows.
	Unlisted investments in equity instruments	Valuation techniques (where one or more of the significant inputs is not based on observable market data) include reference to discounted cash flows and fair values of recent orderly sell transactions between market participants involving instruments that are substantially the same.
	Contingent consideration	Initial recognition: expectations of future performance of the business. Subsequent measurement: present value of the future expected cash flows.

Section 4. Our capital and risk management (continued)

4.4 Net debt (continued)

4.4.4 Fair value measurement (continued)

Table F categorises our financial instruments which are measured at fair value, according to the valuation methodology applied.

Table F Telstra Group	As at 31 Dec 2021				As at 30 Jun 2021			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
	\$m	\$m	\$m	\$m	\$m	\$m	\$m	\$m
Assets								
Trade receivables from contracts with customers	-	-	162	162	-	-	397	397
Derivative financial instruments	-	1,007	-	1,007	-	1,410	-	1,410
Investments in unlisted securities	-	-	15	15	-	-	15	15
	-	1,007	177	1,184	-	1,410	412	1,822
Liabilities								
Derivative financial instruments	-	(235)	-	(235)	-	(357)	-	(357)
	-	(235)	-	(235)	-	(357)	-	(357)
Total	-	772	177	949	-	1,053	412	1,465

Fair value of borrowings presented in Table D was measured using level 2 inputs.

4.4.5 Financial risk factors

Our underlying business activities result in exposure to operational risks and a number of financial risks including interest rate risk, foreign currency risk, credit risk and liquidity risk. Our overall risk management program seeks to mitigate these risks in order to reduce volatility in our financial performance and to support the delivery of our financial targets. Financial risk management is carried out centrally by our treasury department under policies approved by the Board. Our financial risk management strategies ensure that we can withstand market disruptions for extended periods.

The half-year financial report does not include all financial risk management information and disclosures required for the annual financial statements. For further details on our financial risk management refer to note 4.5 to the financial statements in our 2021 Annual Report. There have been no material changes to our risk management policies since 30 June 2021.

Section 5. Our investments

This section outlines our group structure and includes information about our controlled entities, joint ventures and associated entities. It provides details of changes to these investments and their effect on our financial position and performance during the reporting period. It also includes the results of our material joint ventures and associated entities.

5.1 Investments in controlled entities

5.1.1 Acquisitions of controlled entities

Significant acquisitions we have made during the half-year ended 31 December 2021 are detailed in the table below.

Entity acquired	Details of the acquired entities
MedicalDirector	<p>On 16 August 2021, we acquired 100 per cent of Clinical Technology Holdings Pty Ltd and its subsidiaries (MedicalDirector) for a total consideration of \$363 million. MedicalDirector is a provider of clinical software and digital health to health care practitioners in Australia.</p> <p>The acquisition gave rise to \$205 million goodwill reflecting revenue growth opportunities, cost synergies, workforce talents and profitability of the acquired businesses. The goodwill is not deductible for income tax purposes.</p>
Power Health	<p>On 9 November 2021, following regulatory approval, we completed the acquisition of 70 per cent of the shares in Power Solutions Holdings Pty Ltd and its subsidiaries (Power Health). The consideration payable consists of \$98 million upfront cash payment, up to \$10 million deferred payment contingent on certain customer contracts, and up to \$10 million incentive payment that is contingent on Power Health achieving predetermined financial targets during the first two years, and the buyout of the remaining 30 per cent shares in Power Health between the end of years two and five from completion or otherwise obligatory acquisition by year five.</p> <p>Power Health provides a world-class health software asset that is used in almost every public hospital and Healthscope private hospitals in Australia as well as in a growing number of hospitals internationally. The acquisition provides significant contribution to the progress of key areas of focus in Telstra Health's accelerated growth strategy.</p> <p>The acquisition of Power Health is accounted as a 100 per cent wholly owned group. A financial liability is recognised for our commitment to purchase the 30 per cent interest of the group and will be remeasured according to its fair market value at each reporting date. As at 31 December 2021, the fair value of the financial liability was \$46 million. This amount has been included within contingent consideration presented in Table A.</p> <p>The provisional acquisition accounting is expected to be finalised in the second half of the financial year 2022. The acquisition gave rise to \$132 million goodwill comprised of revenue growth opportunities and cost synergies. The goodwill is not deductible for income tax purposes.</p>
Fone Zone	<p>On 12 November 2021, we acquired 100 per cent shareholding in Fone Zone Pty Ltd and its controlled entities (Fone Zone) for a cash consideration of \$106 million, subject to final adjustments. Fone Zone was Vita Group's Retail Information and Communication Technology business and included all of Vita's Telstra branded retail stores and the Sprout business. The acquisition was prompted by our strategy to transition all Telstra branded retail stores to corporate ownership.</p> <p>The acquisition gave rise to \$88 million goodwill representing Fone Zone's workforce with retail experience, cost and revenue synergies, growth opportunities leveraging the existing capabilities of the Sprout business, obtaining favourable site locations to grow our retail network, and savings on dealer commissions. Goodwill is not deductible for income tax purposes. However, as the termination of the dealership agreement that occurred as part of the transaction is treated as a termination of a licence for income tax purposes, this residual balance will be claimed as a tax deduction over a period of five years.</p> <p>The provisional acquisition accounting is expected to be finalised in the second half of the financial year 2022.</p>
Licensee retail stores	<p>During the half-year ended 31 December 2021, we completed multiple individually immaterial acquisitions of retail stores from various licensees. The acquisitions were prompted by our strategy to transition all Telstra branded retail stores to corporate ownership.</p>

Section 5. Our investments (continued)

5.1 Investments in controlled entities (continued)

5.1.1 Acquisitions of controlled entities (continued)

Determining non-controlling interests in Power Health

On 9 November 2021, we acquired 70 per cent of shares in Power Health, however, we applied judgement to determine that we have control of 100 per cent of Power Health on the acquisition date. This is because we have a contractual obligation to purchase the remaining 30 per cent interest from the founding shareholder by 2026. Therefore, the non-controlling interest is deemed to have been acquired at the acquisition date.

We account for our obligation to purchase the remaining interest as a financial liability, initially measured at the present value of the purchase price for the remaining 30 per cent interest. Any subsequent changes in the present value of the financial liability are recognised in the income statement and no earnings are attributed to the non-controlling interests.

Section 5. Our investments (continued)

5.1 Investments in controlled entities (continued)

5.1.1 Acquisitions of controlled entities (continued)

Table A	MedicalDirector	Power Health	Fone Zone	Licensee retail stores
Telstra Group				
Acquisition Date	16 August 2021	9 November 2021	12 November 2021	Various dates
Legal ownership percentage	100%	70%	100%	100%
Status of acquisition accounting	Provisional	Provisional	Provisional	Provisional
	\$m	\$m	\$m	\$m
Consideration for acquisition				
Cash consideration	363	98	106	104

Contingent consideration	-	56	-	-
Total purchase consideration	363	154	132	124
Cash balances acquired	(23)	(10)	(27)	-
Effective settlement of the pre-existing net receivable in Telstra Group	-	-	(26)	(20)
Contingent consideration	-	(56)	-	-
Outflow of cash on acquisition	340	88	79	104
Acquisition costs incurred included in other expenses in the income statement	6	1	3	1
	Fair value	Fair value	Fair value	Fair value
Assets/(liabilities) at acquisition date				
Cash and cash equivalents	23	10	27	-
Trade and other receivables	3	21	13	-
Property, plant and equipment	-	-	15	8
Right-of-use assets	8	-	22	27
Intangible assets	157	-	-	8
Deferred tax assets	24	-	17	-
Other assets	14	-	8	-
Trade and other payables	(17)	(2)	(12)	-
Lease liabilities	(10)	-	(27)	(27)
Deferred tax liabilities	(29)	-	(8)	-
Contract liabilities and other revenue received in advance	(10)	(6)	-	-
Other liabilities	(5)	(1)	(11)	(3)
Net assets	158	22	44	13
Goodwill on acquisition	205	132	88	111
Total purchase consideration	363	154	132	124
Contributions to the Group's performance from acquisition date to 31 December 2021				
Income	22	5	4	2
Profit/(loss) before income tax expense	2	2	(12)	(15)

If all the acquisitions made during the half-year had occurred on 1 July 2021, our adjusted consolidated income and consolidated profit before income tax expense for the half-year ended 31 December 2021 would have been \$10,916 million and \$995 million, respectively.

Section 5. Our investments (continued)

5.1 Investments in controlled entities (continued)

5.1.2 Sale of units in a controlled trust

On 30 June 2021, we announced that a consortium comprising the Future Fund, Commonwealth Superannuation Corporation and Sunsuper agreed to acquire a 49 per cent interest and become a strategic partner in Telstra's towers business.

On 31 August 2021, the towers business became operational following a transfer of business assets and liabilities to Towers Business Operating Trust (Trust). The Trust also incurred \$90 million estimated stamp duty costs related to the establishment of the business. The trustee of the Trust is our subsidiary Amplitel Pty Ltd (Amplitel), previously known as Telstra Towerco No.1 Pty Ltd.

The sale of 49 per cent interests in the Trust and Amplitel to the consortium was completed on 1 September 2021 and resulted in \$2,883 million net cash proceeds. We retain control of the Trust and Amplitel and thus we continue to consolidate these entities. At the Telstra Group level, transactions with non-controlling interests that do not result in a loss of control are treated as transactions with equity owners of the towers business. As a result, we recognised \$763 million non-controlling interests reflecting the consortium's relative interest in the Trust and Amplitel as at the date of the transaction. The \$2,120 million difference between the amount recognised as non-controlling interests and the consideration received was recognised in general reserve within equity attributable to the Telstra Group.

Refer to note 5.2 for the summarised financial information of the Trust and Amplitel amalgamated as at 31 December 2021.

5.2 Non-controlling interests

Summarised financial information of the entities which have material non-controlling interests, i.e. the Trust and Amplitel (Amplitel business), amalgamated for the half-year ended and as at 31 December 2021 is set out in Table A. It represents the amounts before inter-company eliminations of transactions with other entities within the Telstra Group, with the exception of the transactions within the Amplitel business which have been eliminated.

Table A Amplitel business	As at/half-year ended
	31 Dec 2021
	\$m
Statement of financial position	
Current assets	333
Non-current assets	2,226
Total assets	2,559

Net cash inflow from investing activities	56
Net cash inflow from financing activities	68
Net cash inflow	146

5.3 Agreement to acquire the Digicel business

On 25 October 2021, we entered into an agreement to acquire the Digicel business (Digicel Pacific Group) in the South Pacific region for US\$1.6 billion, plus up to an additional US\$250 million subject to business performance over the next three years. Telstra will contribute US\$270 million of equity to the US\$1.6 billion purchase price and the Australian Government, through Export Finance Australia, will provide the remaining US\$1.33 billion through a combination of non-recourse debt facilities and equity like securities. The acquisition is expected to complete in the second half of the financial year 2022 and is thus not reflected in our financial position or results of the half-year ended 31 December 2021. At completion we will own 100 per cent of the ordinary equity of Digicel Pacific Group and account for this acquisition as a 100 per cent wholly owned entity. The equity like securities issued to the Australian Government will be recognised as non-controlling interest at the Group level.

Section 6. Other information

This section provides other information and disclosures not included in the other sections, for example our commitments and contingencies, and significant events occurring after reporting date.

6.1 Commitments and contingencies

6.1.1 Capital expenditure commitments

During the half-year ended 31 December 2021, our capital commitments increased by \$448 million due to our \$616 million commitment to secure spectrum in the Australian Communications and Media Authority's 850/900 MHz auction. Payment for the 20-year spectrum licenses is not expected until shortly before they commence in mid-2024.

6.1.2 Contingent liabilities and contingent assets

(a) Investigations by regulators

Telstra is subject to a range of laws and regulations in Australia and overseas, including in the areas of telecommunications, corporate law, consumer and competition law and occupational health and safety. In Australia, the principal regulators who enforce these laws and regulations and who Telstra interacts with are the Australian Competition and Consumer Commission (ACCC), the Australian Communications and Media Authority (ACMA), the Australian Securities and Investments Commission (ASIC) and the Australian Securities Exchange (ASX).

Telstra is subject to investigations and reviews from time to time by regulators, including certain current investigations into whether Telstra has complied with relevant laws and regulations. These are taking place in an environment of heightened scrutiny and regulator expectation and where Telstra has self-reported issues where it has not complied with relevant laws and regulations. In the ordinary course of our business, we identify, and may continue to identify, issues that have the potential to impact our customers and reputation, which do not meet relevant laws or regulations, or which do not meet our standards. Where we identify these issues, we make disclosures in accordance with the accounting standards, or our other legal disclosure obligations, or provide for such liabilities as required.

Regulatory investigations and reviews may result in enforcement action, litigation (including class action proceedings), and penalties (both civil and in limited circumstances, criminal). One such matter is litigation commenced by the ACCC in August 2021 alleging representations made by Telstra to customers about the maximum internet speeds they would receive for certain nbn services, and the steps Telstra would take to check speeds and offer remedies where maximum speeds were not available, were misleading or false in breach of the Competition and Consumer Act 2010 (Act). The proceedings follow Telstra providing an Enforceable Undertaking under s87B of the Act to the ACCC in November 2017 in respect of similar conduct, and self-reporting breaches of that Undertaking to the ACCC. We are in the process of remediating all customers affected by these representations, with the financial impacts of the estimated refunds reflected in our results for the financial year 2021 with no material adjustments made in the half-year ended 31 December 2021. We have self-reported similar issues to the ACMA, which resulted in a remedial direction in June 2021 which requires Telstra to appoint an independent third party auditor to review its systems, processes and practices for notifying customers about their maximum internet speeds on the nbn, and offering remedies where appropriate.

Given that the outcome of the ACCC proceedings is uncertain, including the extent of any penalties or other remedies awarded as part of those proceedings, as at 31 December 2021 no provision has been made to cover liabilities that may arise from these proceedings.

(b) Other

Since 30 June 2021, there has been a \$60 million increase in indemnities, performance guarantees and financial support mainly reflecting an indemnity to a financial institution to support a bank guarantee. There were no significant changes to contingent liabilities arising from common law claims.

We have no significant contingent assets as at 31 December 2021.

6.2 Events after reporting date

We are not aware of any matter or circumstance that has occurred since 31 December 2021 that, in our opinion, has significantly affected or may significantly affect in future periods:

- our operations
- the results of those operations, or
- the state of our affairs

other than the following:

6.2.1 Interim dividend

The details of our interim dividend for the half-year ended 31 December 2021 are disclosed in note 4.2.

6.2.2 New loan facilities

The details of new loan facilities entered in February 2022 are disclosed in note 4.4.1.

Directors' Declaration

This Directors' Declaration is required by the *Corporations Act 2001*. The Directors of Telstra Corporation Limited have made a resolution that declared:

- (a) in the Directors' opinion, there are reasonable grounds to believe that Telstra Corporation Limited will be able to pay its debts as and when they become due and payable
- (b) in the Directors' opinion, the financial statements and notes of the Telstra Group for the half-year ended 31 December 2021, as set out on pages 1 to 34 are in accordance with the *Corporations Act 2001*, including that:
 - (i) the financial report complies with Accounting Standard AASB 134: 'Interim Financial Reporting' and the Corporations Regulations 2001
 - (ii) the financial statements and notes give a true and fair view of the Telstra Group's financial position and performance for the half-year ended 31 December 2021.

Independent auditor's review report to the members of Telstra Corporation Limited

Conclusion

We have reviewed the accompanying half-year financial report of Telstra Corporation Limited (the Company) and its subsidiaries (collectively the Group), which comprises the statement of financial position as at 31 December 2021, the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2021 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
