Re: Request for interim authorisation to be expanded;

Firstly, we would like to thank the ACCC for granting the interim authorisation. It has been immensely beneficial for the processors to meet together. We have met as a group once already and have another meeting planned for next week.

On draft determination, we would like the ACCC to consider expanding the interim authorisation to allow the group to discuss prices.

This would be highly beneficial to the group as we would be able to move forward in our discussions.

Please do not hesitate to contact me if you require any further information.

Yours faithfully

Candice Kalisch
