National Sales Manager
Sky Channel Pty Ltd

Dear Mr Angel

I've attached the Licence Agreement which was signed on a without prejudice basis and subject to the following matters being resolved.

1. Resolution of current negotiations between Australian Hotels Association, Sky Channel and TAB which include:
 - a) Trade Practices conditions
 - b) Sky fees being based on bulk beer litres
 2. Interpretation of the Sky Channel letter dated Monday, June 17, 2002 which notes a 5% reduction from the 1st July, 2002.
- 2a Our quarterly fees to June 30, 2002 were as follows:
- | | |
|-------|-----------|
| April | \$1255.45 |
| May | \$1297.30 |
| June | \$1255.45 |

\$ 346.20 EX GST
\$3462.00

\$ 173.10 LESS 5% as per letter dated June 17, 2002

\$3288.90

The new Licence Agreement attached has a commencing quarterly fee of \$3946.80 or ex GST of \$3588.00, APPROXIMATELY \$300 MORE THAN ANTICIPATED. I received the contract with the new rate on Monday, July 29, 2002 and was obviously surprised to learn of this increase. Please clarify.

The Berry Hotel's bulk beer purchases from Tooheys and Carlton have decreased by 10% plus during the past 12 months.

Once again (refer my letter August 27, 2001) I'm alarmed at the duress being employed by Sky in threatening to cut our signal if this contract is not signed immediately.

After eleven years of being a loyal customer our current agreement expires on August 3, 2002. We trust Sky acknowledges our commercial approach and the reasons for signing the current contract on a without prejudice basis and subject to clarification of the points noted herein.

Yours faithfully
Colin Waller, Licensee.

27 August, 2001

Dear Ms Thomas,

I Refer to your letter 17 August, 2001 and advise as follows.

Paul Maher together with Jon Banwell attended our Hotel on Wed 1st August, 2001. Discussions took place and I advised your representatives the following. . . I was about to go into Hospital that day for major surgery. Our Development Application for major Bar refurbishment was being processed by Shoalhaven Council.

Our TAB turnover in the past few years had reduced significantly \$25,000 per week to approximately \$18,000 per week due to a new agency being given to the Berry Bowling Club (situated approx. 150 metres from our Hotel), a new Kangaroo Valley Agency which markets into our catchment area and the increase in home betting. In the past three years we have invested some \$30,000 by providing two large screens and an additional 12 monitors to support the TAB operation.

The major problem was the TAB product was simply not female friendly and actually drove 52% of our available market out of the bar areas.

I suggested when the TAB product became more female friendly an increase in Sky fees maybe substantiated. Your Representatives asked "how would you do this?" I replied "use Gai Waterhouse, market jockeys as glamour pin-ups or sex symbols, have more interactive Ladies mid-week race days". (There is only one at the moment, the Melbourne Cup). A camera could be placed at a Hotel TAB venue, where the locals Ladies Club together with the Hotelier could be raising funds for their chosen Charity, School etc. (A few ad hoc suggestions after a few moments consideration) We discussed a Sky fee based on litres of beer sold, I replied that this would not be suitable as more than 50% of our beer sales were associated with our food and outside food operations. When we commenced our business and the TAB agency food sales were nil per week.

Our past 6 months keg orders averaged 24 per week or approx.. 64,300 litres per annum. or approx.. 32,000 litres attributable to other styles of bar sales. The bulk of which came on a Fri. and Sat. Night when we provide entertainment not Sky related. The Sky representatives checked their costing charts for Hotels doing less than 30,000 Litres which would lead to a reduction of the existing Sky fee. I suggested to continue on the current Sky rates or at most pay the 3% as per the Sky letter 6/6/2001. I was asked if I would sign a contract for 12 months on existing rates. "Yes!" I replied and Jon Banwell then went to his car and produced a redrafted contract for twelve months which I then signed.

MICHAEL ORLOV

In all my discussions with your Representatives I suggested **THE ONLY FAIR WAY TO ESTABLISH A SKY FEE IS BASED ON THE TAB TURNOVER AS 99% OF SKY USAGE RELATES TO RACING.** Any other usage such as boxing, requires additional payments.

On my return from Hospital on the 6th August Paul Maher said the original 12 month signed contract was . . . "not suitable" . . . and that I must sign that day a new contract with a 13.6% increase in Sky fees . I replied "No way. The AHA is discussing various aspects of the TAB agency agreement with your management. I will await completion of those discussions before I sign a new contract and/or relinquish any rights to our existing agreement."

That same day I received a call from the other Hotel in Berry, the Great Southern Hotel, approx. 150 metres from our premise. The Licensee informed me that he was approached by Paul Maher who suggested I was not interested in the TAB agency and would the GreatSouthern Hotel be interested in taking over the TAB agency.

This unethical approach raises some concerns which need to be addressed now.

What would be the Sky fee offered to the Great Southern assuming their beer sales are 60-70% less?

What guarantees would I have if I do sign a TAB agency agreement ,that in the future, an offer will not also be made to the Great Southern Hotel?

If so, would I be allowed to reduce my Sky fee to the rate being paid by either the Great Southern or the Berry Bowling Club?

I fully understand the Trade Practices ramifications for both sides however the current situation has numerous fair trade anomalies. Example outlets with higher TAB turnover than the Berry Hotel paying lower Sky fees.

Other concerns relate to signing a 5 year contract without recognition of technology changes - general trend shifts in consumer gambling habits to home entertainment and betting - without adjustment to any existing arrangements or agreements. The supplier of Sky TAB benefiting by having agents selling less than \$7,500 per week.

All in all I'm somewhat alarmed at the duress being employed by Sky TAB in order to force the signing of a new contract until all negotiations and concerns noted above are completed especially as our agency has been loyal and without blemish in it's Sky TAB association and has established by **OUR OWN MARKETING EFFORTS and INVESTMENT, THE NUMBER ONE SPORTS TAB OUTLET IN NSW. EVEN BIGGER THAN STAR CITY - Berry has a population of 2500 people.**

Your replies to the questions and concerns noted herein would be appreciated.

Yours Faithfully,

Colin Waller,
Licensee. The Berry Hotel.

Dear Paul

SKY CHANNEL LICENCE AGREEMENT

I refer to our conversation of 29th July, 2002 and in particular, our beer literage sales as a factor in the calculation of the Sky fee and the threatened withdrawal of the signal if the attached contract is not signed.

Please note:

1. I consider the circumstances of signing the said contract as one of duress.
2. Any payments relating to the contract are made under protest.
3. As Sky is an essential part of our business, we are left with no alternative but to submit and make the invoice payments and sign the agreement.

Yours faithfully
