Dear Mr Gregson

Review of authorisation A58 granted to the Royal Australian Institute of Architects

We refer to your correspondence dated 8 September 2004 (Your Ref: C2002/1076) in relation to the above matter. The Board has considered this matter and believes that there is continued public benefit in the RAlA publication of information regarding architects services, conditions and fees including a fee guide. The Board believes that it is in the public interest that publication of such information continues.

Yours sincerely
