Trade Practices Act 1974

Application for authorisation lodged by the Clay Brick and Paver Institute for itself and on behalf of the Concrete Masonry Association of Australia (A90895)

The Australian Competition and Consumer Commission (the ACCC) has issued a final determination in respect of the above application for authorisation which was lodged by the Clay Brick and Paver Institute (CBPI) for itself and on behalf of the Concrete Masonry Association of Australia (CMAA).

The ACCC has made a determination granting authorisation to the CBPI and CMAA. Essentially authorisation is granted for an agreement between CBPI and CMAA members to impose two levies, one on the price of clay bricks and pavers and one on the price of concrete masonry products sold in the states of New South Wales, South Australia, Western Australia, Queensland and the Australian Capital Territory. The levies are to be matched by CBPI and CMAA manufacturing members, as voluntary industry contributions. Money raised by the levies will be used to fund an apprentice bricklayer training scheme.

The ACCC has decided to grant authorisation for 12 months for the reasons set out in the enclosed final determination.

This determination is made on 4 November 2004. If no application for review of the determination is lodged with the Australian Competition Tribunal within the statutory period, namely by 25 November 2004, the ACCC's determination will come into force on 26 November 2004.

A copy of this letter together with the determination will be placed on the ACCC's Public Register. Your interest and input into this matter has been appreciated.

Please do not hesitate to contact Tania Mayrhofer on (02) 6243 1070 if you would like to discuss this matter further.

Yours sincerely

Tim Grimwade
General Manager
