Re:South Australian Oyster Growers Association Inc. applications for authorisation A60024 - A60025 -
interested party consultation

Dear Sir,

It is in my opinion that the agreement to allow SAORC to invest money levied on all oyster growers in SA through the purchase of oyster spat, for the purpose of research and development, is a fair and just approach. I feel that there is no public detriment, only benefits to the public as this research and development is vital to maintain and improve our product, which benefits all.

This process has no effect on competition.

Yours truly

Vicki Blesing
