Subject: RE: juice station conference

Dear David,

I forgot to mention in my previous email this morning in relation to Juice Station Bottles. When i became a franchisee the franchise agreements signed clearly stated that the bottle sizes to be used were 250ml, 300ml and 500ml. These bottle were being supplies by juice station head office at a price plus the franchise fee. I was able to make a few phone calls and purchase the bottles a few cents cheaper per bottle only for my two stores, so the volume was very small.

At this point it was clear that there was no saving to be made purchasing through the franchisor.

We were then informed that the bottles were being changed and that we must but through the franchisor, which we did and that's when the troubled occurred. I through my solicitor made several complaints on issues ranging from store fitout, purchase price of the stores prices of fruit and bottles and many other issues.

Most issues were never addressed.

Many thanks
