Medicines Australia applications for revocation and substitution A90994-A90996

Dear Ms Crosbie

I refer to recent communications¹ relating to the above application and in particular the ACCC's consideration of the possible imposition of conditions in this matter.

The Commission has carefully considered your recent submissions. Having regard to the importance placed by the ACCC on the transparency provided the Medicines Australia Code of Conduct, the Commission is likely to impose reporting requirements similar to those set out in the table attached to the ACCC's letter of 7 June 2006.

The Commission has also given further consideration to the monitoring and reporting periods proposed in the draft determination. Again, having regard to the importance of transparency under the code, the ACCC is likely to extend the period of Medicines Australia's monitoring and reporting of educational events.

I expect the Commission to finalise its consideration shortly. Please feel free to contact myself on 02 6243 1132 or Isabelle Arnaud on 02 6243 1049.

Yours sincerely

for Scott Gregson
