Dear Sal

**APCA's application for revocation of authorisations A90617 to A90619 and substitution of authorisations A91016 to A91018 in relation to the High Value Clearing System (HVCS) authorisations – Interested Party Consultation**

The Australian Competition and Consumer Commission (the Commission) is currently conducting an interested party consultation process in relation to an application made by the Australian Payments Clearing Association Limited (APCA) for revocation and substitution of the above authorisations, which were granted on 1 April 1998 for a period of 10 years.

APCA has sought re-authorisation in relation to certain provisions of its High Value Clearing System (HVCS) Regulations and Procedures.

**Background**

The ACCC is the independent Australian Government agency responsible for administering the Trade Practices Act 1974 (the Act). A key objective of the Act is to prevent anti-competitive arrangements or conduct, thereby encouraging competition and efficiency in business resulting in a greater choice for consumers in price, quality and service.

The Act, however, allows the ACCC to grant immunity from legal action for anti-competitive conduct in certain circumstances. One way businesses may obtain immunity is to apply for what is known as an 'authorisation' from the ACCC. Broadly, the ACCC may 'authorise' businesses to engage in anti-competitive arrangements or conduct where it is satisfied that the public benefit from the arrangements or conduct outweighs any public detriment.

In assessing the public benefits and detriments of an authorisation application, the ACCC undertakes a public consultation process seeking comments on the application from interested parties. Following an initial consultation process, the ACCC will issue a draft decision for comment. Further information regarding the authorisation process is available from the ACCC website ([www.accc.gov.au](http://www.accc.gov.au)).

## **Application for re-authorisation by APCA**

The HVCS Regulations and Procedures were previously authorised by the ACCC on 1 April 1998. Authorisation was granted for 10 years. APCA is of the view that a blanket authorisation covering the HVCS Regulations and Procedures as granted in 1998, is no longer necessary and is seeking re-authorisation only for HVCS Regulations 5.2(h) and 5.16 to 5.31 and clauses 5.1 and 5.2 of the HVCS Procedures. These provisions relate to suspension and termination of HVCS membership and the requirement that members join SWIFT.

On 20 October 2006, the ACCC received an application for re-authorisation of the above mentioned provisions of the HVCS Regulations and Procedures.

In summary, APCA submits to the extent that the:

- *suspension and termination* provisions 5.16 to 5.31 of the HVCS Regulations may be an exclusionary provision within the meaning of s 4D of the Act, such provisions will result in such a public benefit that they should be allowed to remain in place;
- *suspension and termination* provisions 5.16 to 5.31 of the HVCS Regulations might have the purpose or likely effect of substantially lessening competition in a market within the meaning of s 45 of the Act, such provision in all the circumstances has resulted and will continue to result in a benefit to the public and that benefit outweighs the detriment to the public constituted by any lessening of competition that results from any such provision;
- HVCS Regulations 5.2(h) and clauses 5.1 and 5.2 of the HVCS Procedures, requiring the members of the HVCS to be members of SWIFT may constitute third line forcing within the meaning of ss 47(6) or 47(7) of the Act, such a provision in all the circumstances has resulted and will continue to result in a net benefit to the public and should be allowed to remain in place.

A copy of APCA's submission and an extract of the relevant provisions of HVCS Regulations and Procedures for re-authorisation are attached. Please refer to APCA's details of the public benefits and detriments that APCA claims are likely to result from the proposed arrangements.

A full copy of the application is also available on the ACCC's website <[www.accc.gov.au](http://www.accc.gov.au)> (by following the Public Registers & Authorisations links).

### **Request for submissions**

To assist the ACCC in its consideration of the application it would be helpful to obtain your comments on the likely public benefits and the likely effect on competition, or any other public detriment, from the proposed arrangements.

The ACCC asks for submissions to be in writing so they can be made publicly available. They are placed on a public register for this purpose.

Persons lodging a submission with the ACCC may request that confidential information included in the submission be excluded from the public register. If information is excluded, the ACCC may take it into account, even though it is not publicly available. Guidelines seeking exclusion from the public register are attached.

You can also forward this letter to any other party who may wish to make a submission to the ACCC regarding this application.
