Subject: AGSAFE'S APPLICATION FOR REVOCATION AND SUBSTITUTION A91027 AND A91028

Thank you for your letter of 5 January seeking a written submission from EPA Victoria on public benefits and anti-competitive effects of Agsafe's Code of Conduct Accreditation Program for the Australian Agricultural and Veterinary Chemical Industry.

EPA does not regulate the storage, handling, transport, or sale of agriculture and veterinary chemical products, hence we are not providing a formal submission to the ACCC on this matter.

EPA supports the general intent of the application and the assistance that the code of conduct would provide in ensuring the manufacturing and distribution of agricultural and veterinary chemicals is maintained to a high standard.

If you have any further questions regarding this submission, please contact Paul Randell in my team on (03) 9695 2562.

Thanks and regards,
Melinda Barker
