Contact Officer: Sarah Chubb

Dear ACCC,

Following a meeting of FarmSafe Victoria on the 17th of May 2007, I have been asked to respond to your Notification/information.

The information you sent for comment/submission was circulated at the meeting and guidance and information sort.

Following discussion the following resolution was put forward;

As the application and information did not represent any implication to safety it is felt there should be no objection stated by FarmSafe Victoria.

The following comments are also forward for your consideration;

It was also felt that as there is a range of extended warranty offers by other companies this offer was not unusual.

It is part of normal work practice when buying equipment to gain quotes from a number of suppliers about warranty

If by suppling "superior quality" parts and oils they are able to guarantee better warn and tear then this should be good for both the company and operator.

Thank you for this opportunity.

Regards,

John Curtis, FarmSafe Victoria
