Dear Sir,

Re: Submission regarding an Application for Authorisation.

SADA is responding to your invitation to comment on the application for authorisation A91051, A91052 and A91053 lodged by National Foods Milk Limited and Australian Cooperative Foods Limited.

At their Board Meeting on 12th June the SADA agreed to support the application. SADA is the association representing the interests of SA dairy farmers.

SADA supports the application because we believe that the efficiencies generated will benefit farmers, processors and consumers. Also we believe there are significant benefits to the community by limiting the number of large milk tankers on the roads. The less tankers means safer driving and better roads. We are not aware of how the granting of the application would affect competition in either the transport or processing sectors.

If you would like further information please contact me.

Yours Sincerely,

David Basham
President, SADA
