Dear Mr Gregson

Agsafe's application for revocation and substitution A91027 and A91028 - interested party consultation

I refer to your letter dated 5 January 2007 on the above subject.

I would like to inform that the EPA has no significant issues with the proposed new authorisations in respect of Agsafe's Code of Conduct. In relation to the questions on the Attachment A, please note that in Queensland the control of use of agricultural and veterinary chemicals rests with the Department of Primary Industries and Fisheries. The DPI would be in a better position to answer the questions.

Under the *Environmental Protection Regulation 1998*, certain aspects of chemical management, for example chemical manufacturing, processing or mixing, and storing are considered as environmentally relevant activity (ERA) and controlled by the EPA.

I hope this information is of assistance to you. Should you have any further queries, please contact me on 07-32277349.

Yours sincerely

Dr Faiz Khan
Program Manager Waste & Chemicals Reporting
