26 March 2008

Dear Sir/Madam

**Exclusive Dealing Notification lodged by NASR and others**

We currently own a sprintcar and compete at all events that are organized through SAWA which is the WA branch of SCCA. Our son Kris has been racing our car for the past two seasons. The 2006/07 season he raced in the 360 class. This season Kris is racing in the 410 open class.

At the start of the 2006 season, we joined NDRA so we could race. At the opening of the Motorplex season we were told that they did not recognize the NDRA and we must have a NASR license to compete at their venue, even though we had joined SAWA and any other controlling body we needed to. We are opposed to NASR having total domination of our sport for the following reasons.

- NASR is a Pty Ltd company, and as such are not there for the betterment of the sport, but purely for profit
- Grave concerns for the future of country tracks that foster and encourage junior drivers through the ranks. Kris was one of the many who started his speedway career in the juniors at country tracks.
- NASR controlling where, when and who we can race against.  
As an example - SAWA (Sprintcar Assoc of WA) are conducting their 360 sprintcar state title at Narrogin, which according to NASR's application is a non registered track. Would this title still be able to be run at Narrogin?
- We believe that the Motorplex and NASR's main objective is to have only one venue in WA for the competitor's to race at.

- Will this domination lead to inflated license and insurance prices as they will have the monopoly on the market? No competition

The General Manager of NASR has been quoted in numerous magazines saying that competition is good for business. Maybe not when it comes to their business.

Could you please inform us why the application and associated documents can no longer be viewed on your website? Has the application already been approved?

Yours Faithfully

Steve and Linda Coyle
