I am writing to you with regards to Ebay's proposal to restrict payments to only using PayPal.

I feel that not only is this taking away my basic rights but it is just another way for Ebay to make more money. I have had well over 100 transactions both buying and selling in Ebay and have predominantly used Bank Direct Deposits and occasionally a Money Order and I have never had any problems with bad payments, security etc.

I do have a PayPal account and occasionally do use that to either pay or receive payments but to me I use PayPal as the last resort and certainly do not want to have to use it as my ONLY choice of payment.

PayPal charge a % on every transaction and if our rights to choose how we want to pay for Ebay items are taken away from us and we can only use PayPal then PayPal will be making a huge amount of money out of this.

Australia is supposed to be a free country with rights to free choice, free speech etc – lets try and keep it this way.
