PUBLIC REGISTER**

Dear Sir/Madam,

It has just come to my attention that eBay is introducing the only for of payment as PayPal.

As a buyer this is totally unacceptable, it should be my decision as to how I wish to pay for an item. As you would be aware eBay and PayPal are the same company. What has happened to freedom of choice, my choice as to how I wish to pay for items, this is so totally wrong.

I thought the ACCC was there to assist the consumer not big business! EBay has only introduced this to increase there profits certainly not for the consumer.

I sincerely hope you intervene and stop eBay from doing this.

Yours faithfully,

Sharon Dunne.
