I wish to complain about the proposal that EBay is going to make it compulsory to use PayPal as the only means of payment for their services. This is clearly a violation of trades practices laws and should not be allowed to go ahead.

I have been an Ebay user for some time now and have had no problem at all with direct bank deposits and this is my preferred method of payment rather than going through a third party.

This proposal effectively means that a person who does not have a credit card will not be able to use EBay.

Yours sincerely

George Barrett
