Dear sir /madam. I wish to express my concern at the decision of e Bay management to demand all users use "paypal" as the sole means of buying and selling goods on the net. This is a simple profiteering exercise and in no way benefits the seller/buyer. It reduces their freedom of choice, reduces competition and puts e bay in complete control of the fee structure. This is not in the interests of consumers. Consumers should have the choice of which financial institution best suits them. Many use e Bay's "paypal" as a last resort as it is so expensive. Competition ensures the consumer has a choice. E Bay should not be allowed to demand consumers use "paypal".
