Subject: SUBMISSION: eBay International AG - Notification - N93365

Dear Sir/Madam,

RE: eBay International AG - Notification - N93365

I wish to express my opinion on eBay's proposal to only allow users of it's internet site to make and receive payments online via the PayPal Australia service.

I believe that the ACCC and the public should support eBay's wish to continue with this ridiculous proposal. Although it may cause hardship for many thousands of eBay users, it would encourage those users to find and use the services of other online auction sites and web based stores. I believe that eBay has had great impact on the online community, but it's domination of the online auction industry has almost created a monopoly, against which other auction sites can't compete easily.

I have personally been a casual user of eBay for both buying and selling over the last few years, and have gained much out of it's services. I do believe though, that in the last 12 months, eBay has become focused entirely on it's own profits. This is why I have all but stopped using eBay.

For the record, I do not have any financial or personal interest in any other online trading or auction companies.

Bradley Scrusse.
