Dear Susan

**Central Queensland Government Association application for authorisation
 A91087 – Interested party consultation**

This letter is to advise that Amcor Packaging (Australia) Pty Ltd has no objection to the proposed collective tender process for the provision of waste and recyclable collection and processing from all residential premises in their combined local government areas.

In our view, the economics of recyclable collections and processing will be enhanced through the aggregation of services to the group of councils and improve the economic outcomes to these councils and, therefore, the local communities they serve. We do not believe that the proposal will adversely impact competition for the provision of waste services and recyclable collection and processing services in the area.

Please keep Amcor informed of the progress of the application at the final determination stage via e-mail to the undersigned at paul.hilton@amcor.aom.au.

Yours sincerely

Paul Hilton
General Manager, Amcor Recycling
