Dear sir,

It has been brought to my attention by an ebay seller that ebay proposes to make paypal the only method of payment for items purchased on ebay.

I strongly oppose this idea and condemn ebay for only informing sellers of this peoposal. It would have been very easy for them to post this information on everyones "My ebay" page so everyone would know and have a chance to comment. The way they have chosen to go about this is very underhanded. Please do not agree to this proposal as it takes away all parties freedom of choice.

Regards

Roger Turner.
