Hello, I have just seen the request for submissions from the public and wish to make a few comments.

I have sold items on Ebay for 5 years using direct deposit only.I have never had any problems with security or anything else.I won't use PayPal for several reasons:

- 1.It is too expensive.
- 2.Ebay owns it.
- 3.I have heard of accounts frozen, hacked and fraudently used.
- 4.It takes days for payments to come through.

Conflict of interest and lack of choice are the main problems with the new Ebay enforcement policy and hopefully it will not be allowed.Upgraded security is being used in their submissions but of course it is greed.
