Subject: Concern on Ebay announcement regarding the Implementation of Payment Method

To Whom It May Concern:

I am a regular user and own few accounts for selling stuffs on ebay. I would like to lodge the a public submission concerning the Payment Method which will plan on 21 May and 17 June.

I am concerning the following:

- The flexibility of my buyer to made a payment via other method
- Ebay has charged fees on each listing and each sold item I made.

Each month on average I contributed 6% of my profit to ebay. I cannot afford another permanent fee charges resulted from the Paypal transaction. This is double dipping and double killing the small business by EBAY management.

Thanks and regards
