Subject: Complaint against ebay's paypal payment option

Hello,

I would like to oppose the pending changes on ebay.com.au where the only form of payment will be paypal. This is an anti-competitive move and just funnelling ebay members into paypal to suck out more fees. The ONLY winner here would be ebay's bottom-line, the consumer is left with NO other options and therefore pays more fees which is a huge detriment to sellers and it is also a monopolistic act, which should be illegal!!!

Thank you,

Nav

ebay member since Oct 2002.
