Subject: eBay Bullies

Good Morning

I found your contact on the eBay forum.

I am writing to you regarding all the payment changes to eBay. Are they allowed to monopolise the market as they intend to?? It is really difficult for small sellers to get anywhere, now they want to impose further charges to sellers by making them use only their payment system.

The ACCC has to address this. eBay seem to be allowed to get away with anything they want, at the expense of the little people. Some of us cannot work in mainstream employment and eBay was a light at the end of the tunnel. Now that light has been extinguished by greed of a international bullie - eBay.

Thank you for your time and assistance.

Regards
Vicki
