Please consider the following to be a submission from an interested party.

re: eBay International A.G. notification N93365.

Submission by an Interested Party,

We are a business seller on ebay, who take all payments including Paypal for Ebay sales, By introducing the PAYPAL only

- 1) Insufficient protection to sellers for payment received. Buyer receive the goods can lodge charge back for " Item significantly not as described". Paypal has no mechanism to determine each senario but to grant favour to the buyers.
- 2) Total destruction of ebay's feedback System. which is is unfair for sellers who has worked through years to build up reputation on ebay. As ebay claimed all buyer's purchases will be much safer by introducing Paypal only. it means buyers do not need to look at seller's feedback to make purchases. under Ebay new Paypal only proposal on Safety, ebay / Paypal consider all payments and purchases will be safe through paypal by charging mandatory highest merchant fee on Credit Card & Debit from buyer's bank account ever in Australia.

It also destructs the competitions between sellers on ebays who are doing the best to build up their reputation as sellers in serving Australian Community.

- 3) If this exclusive dealing got approved, by following the precedence, ACCC shall also approve exclusive dealing application of following possible applications;

e.g. Westfield Store Card Only on all Westfield shopping centre

e.g. Caltex Credit Card only on Caltex Petrol Station, Mobile Cash Card only on Mobile Petrol Station, BP Debit card Only on BP. Shell Voucher only on Shell Petrol Stations.

Thank you for taking the time to submit my objection to this unfair situation
