Hi Ebay has notified that payments to sellers will only be allowed through Paypal.

I would like to protest at this move as it restricts sellers payment options. Further it smacks of self interest as to my knowlege Paypal is owned by Ebay.

Further this will increase the cost of trading on Ebay as Paypal charges sellers a fee for each transaction processed. Also if payments are remitted from Paypal to a seller and the tranfer is under \$200 the transaction incurs a \$1 fee.

Yours faithfully
